. Safety Precautions

Use headphones when driving, please follow the regulations of your country and region.

Keep all equipment and accessories out of reach of children's pets. Ingestion of parts may result in suffocation and serious consequences.

Do not place the device too high or too low (under 0 degrees Celsius or above 45 degrees Celsius). Extreme temperatures can cause deformation of the device, reduce the charging capacity of the device, and shorten the service life.

Do not get the device wet and the liquid can cause serious damage to the device. Do not operate the device with wet hands. Damage caused by water ingress is not covered by the warranty.

If you listen to high volume for a long time, it may damage your hearing. It is recommended to use the lowest volume of the call and the song.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
