mega	M	1 000 000
giga	G	1 000 000 000

THE MODERNIZED METRIC SYSTEM

The "modernized" metric system is the International System of Units or SI (from the French "Le Systeme International d'Unites," which is abbreviated SI). For purposes of international trade, the metric system is more than just SI. It includes the product standards and preferred sizes that are accepted by industries and governments throughout the world.
