FREQUENTLY ASKED QUESTIONS

Q: How can you download the games?

A: Scan the QR code on the 'Product Information' sheet, find the game you want on the official internet page, click the game to download.

Q: Why can't I find the AR magic gun Bluetooth signal on the phone?

A: 1.Check if the AR magic gun switch is on or not, the Bluetooth signal light will flash if it is on.
2.Check if your AR magic gun is already connected to any other mobile phone. Switch off and then on again the AR magic gun and try to reconnect.

Q:Why can't I connect to bluetooth?

A: 1.Make sure the phone system is Android4.4/IOS8.0 or above.
2.Check if bluetooth on the phone is turned on or not, and that it is version 4.0 or above.
3.Ensure you connect the Bluetooth properly by either scanning the QR from the game App or by choosing the right bluetooth option from the list.

Q: "Fish in the air" and "Fruit pi" can't operate properly?

A: Please make sure your phone has gyroscope function.

If these answers still can't solve your problem please go to AR Magic Gun's official website, or contact customer service to get help.
