4. Then turn on phone A Bluetooth function again, click Bluetooth headset model "B103" for pairing.

05

Speaker parameters

•Speaker diameter: ϕ50mm
•Impedance : 22Ω
•S.P.L: 116dB S.P.L at 1KHz
•Rated power: 10mW
•Frequency response: 20Hz-20,000Hz

Function features

•Pure digital sound quality double decoding system, full sound quality and solid low pitch sound; it can play various formats of files.
•High signal to noise ratio Bluetooth audio connection without any transmitter, totally free enjoyment of wireless music;
•Intelligent power saving mode, low power consumption design, built-in lithium battery allows continuous operation of over 6hours.
•Automatic shift between voice call and music play modes, entertain and communicate at the same time.
•Automatic voice prompt of headset action.
•Portable folded design and multi-function key make it simple and convenient to use;
•3.5mm audio port design; suitable for 3.5mm audio device, making wide device wireless one immediately.

06

Product specification/parameter

•System support: audio device with Bluetooth function, including PC, phone, MP3 and laptop
•Bluetooth protocol standard: V4.1 EDR
•Reception distance: 10m+360°
•Carrier frequency: 2402MHz-2480MHz
•Battery: chargeable Li-ion polymer battery (3.7V 250MAH);
•Chargeable power supply: computer USB port DC 5V; DC 5V (500MA)
•Travel adapter: DC 5V (500MA) car charger
•Continuous operating hour: more than 6hours;
•Frequency response: 20Hz-20KHz;

Precautions

To receive the best audio quality, please wear this headset correctly. Mark L on the headset means left, R means right. Do not dismantle hardware without permission; please use dry and soft cotton products to clean the headset.
Preventive measures below are recommended:

4. If the headset will not be used for a long time, please charge and discharge once in every week so as to prolong service life of the battery.

07

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure requirement.

The device can be used in portable exposure condition without RF striction.
