April 23, 2018

Federal Communications Commission  
7435 Oakland Mills Road  
Columbia MD 21046

Subject: Request for Long Term Confidentiality of Certain Protected Documents  
FCC ID: 2AMDTML1

To Whom It May Concern:

Pursuant to the provisions of Sections 0.457(d) and 0.459 of the Commission's rules (47 CFR §§ 0.457, 0.459) and KDB 726920, Humanscale Corporation ("Humanscale") requests that the Commission treat the following attachments as confidential, trade secret documents and thus indefinitely withhold them from public inspection or public disclosure.

| <u>Exhibit Type</u>     | <u>Attachment</u>                  |
|-------------------------|------------------------------------|
| Schematic Diagram       | 770-1009-SCH REV A (CASSETTE)_RFID |
| Block Diagram           | MedLink Block Diagram_4_23_18      |
| Antenna Specification   | MedLink Block Diagram_4_23_18      |
| Operational Description | MedLink Block Diagram_4_23_18      |

The documents noted above contain detailed system and equipment descriptions that Humanscale uses in its business on a confidential basis subject to non-disclosure agreements. Humanscale considers these documents to be confidential and proprietary trade secret information regarding the design and/or operation of the equipment. These documents represent a custom electrical and hardware design which otherwise would not be made available or released to the general public. Humanscale believes these documents provide Humanscale with an economic advantage over its competitors who market and sell competing products. The unauthorized or public disclosure of these documents at any time while FCC ID 2AMDTML1 is on the market would have an adverse economic impact to Humanscale's business.

Apart from the documents noted above, Humanscale expects that all photos, measurement test reports, FCC ID label format(s), and correspondence between Humanscale, our authorized agent and the Commission during the certification review process will automatically remain confidential up until the equipment authorization for FCC ID 2AMDTML1 is granted.

Best Regards,
