- Press any button to silence alarm after it sounds.

Display Dimmer / 12/24H Time

- Short press **⏻** button to choose 2 brightness levels or turn display off.
- Press and hold **⏻** button to select 12 hour or 24 hour time.

Fast wireless charging works with most standard thickness protective cases made of plastic. Remove any metal case or metal plate adhered to the back of your phone prior to charging. Metal cases and metal plates will cause interference that could damage your device. Never use the charger to charge smartphones with metal cases or metal plates between the case and the phone. Some additional non-metal protective cases may also interfere with proper charging.

CAUTION! Device must have Qi™ enabled charging. Check with manufacturer for compatibility.

The charger and phone will feel warm during or after charging.

WARNING! IMPORTANT CARE AND SAFEGUARDS

Failure to follow the safety instructions can lead to fire, electrical shock, personal injury or property damage and damage to this product.

- Do not use the wireless charging dock for anything other than it's intended use.
- This product is not intended charge batteries or other devices.
- If you have an electrical device, such as a pacemaker, consult a physician before using this product.
- Do not place magnetic cards or similar items near charging pad.
- Keep all foreign objects, small metal pieces and debris away from charging surface at all times.
- Make sure charging pad is clear prior to use and at all times.
- Always use the specified power source and voltage.
- Do not use a voltage converter / travel adapter.
- Always place the charging clock on a sturdy and level surface.
- This product contains small parts and is not suitable for children.
- Do not expose this product to rain, water or excessive humidity.
- If the dock becomes wet, immediately unplug it from the power source.
- Keep charging clock away from heat sources and direct sunlight.
- Always use this product in operating temperatures of 32°F (0°C) 95°F (35°C).
- Do not handle charging dock, USB power cord or power source with wet hands.
- Do not let dust or other things accumulate on charging dock and power cord.
- Do not use the charging clock if it has been dropped or damaged in any way.
- Never take this device apart and always get repaired by a qualified technician.
- Always unplug the charging clock when not in use for a long period of time.

FCC Disclaimer: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. NOTE: THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THIS EQUIPMENT. SUCH MODIFICATIONS COULD VOID THE USER AUTHORITY TO OPERATE THE EQUIPMENT.

The 'Qi' symbol is a trademark of the Wireless Power Consortium.

Wireless Charging

Alarm Clock

Product Instruction Manual

Please read carefully prior to use.

Plug into any USB power source 5V / 2 amp or greater. For faster charging speeds, combine with 9V / 2 amp USB power source.

Please call customer service at 1-800-254-0111 with any questions

Proper Charge Positioning

Care Tip: Unplug clock and wipe with a soft cloth. Never use any abrasive cleaning agents or get wet. Periodically wipe off accumulated dust.

Connecting Power

- Connect USB charging cable to USB-C port on back of clock.
- Connect to USB power source 5V / 2A or greater (not included).
- For faster charging speeds, combine with 9V / 2A USB power source.

Wireless Charging

- Place Qi™ enabled smartphone onto wireless charger with device centered on charging surface. Must place phone or device in the center of charging surface.
- Green charging bolt will illuminate near clock time while charging and phone will display charging progress on screen. Solid charging bolt indicates device is charging.
- Flashing green charging bolt indicates that phone is not aligned properly or foreign object is detected (FOD). If this occurs, check device alignment, make sure charging surface is clear of foreign objects, remove phone case if applicable and try again.
- Works with most phone cases up to 4mm thick that do not contain metal. Thick cases that cause distance to exceed 4mm or contain metal may interfere with wireless charging.
- The wireless charger supports power outputs up to 15 watt fast charging. 9V/2A USB power source required for fast wireless charging.
- The charging surface, phone and accessories will feel warm during or after charging.

Solid Bolt
Wireless charging up to 15 watts. Charging rates vary by device.

Flashing Bolt
Foreign object detected (FOD). Check device alignment, make sure charging surface is clear of foreign objects, remove phone case if applicable and try again.

Setting Time

- Press and hold **M** button until hour on display flashes. Use **▲** and **▼** to select hour.
- Short press **M** button again to set minutes. Use **▲** and **▼** to select minutes.
- Time setting will confirm automatically after 10 seconds of inactivity.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or

television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm distance between the radiator and your body: Use only the supplied antenna.
