Black Shark Power Bank

使用产品前请仔细阅读本说明书,并妥善保管。
Read this manual carefully before use, and retain it for future reference.

Device layout

- 1.LED power indicator 3.Function buttons
2.USB-C port,support input and output

Specifications

Product Name: Black Shark Power Bank
Product Model:BPB10
Battery capacity: 5000mAh/19.25Wh
Rated capacity: 3000mAh (5V/2A)
Battery Type: 5000mAh Li-ion Polymer Battery*1pc
Type-C input: PD18W (DC5V-3A/9V-2A)
Type-C output: PD20W (DC5V3A/9V2.22A/12V 1.67A)
Wireless charging output: 5W/7.5W/10W/15W (Max)
Total multi-port output: DC5V 2A, 10W (Max)
Product size: 102.5*66*9.1mm

Usage

Charging your mobile power
To charge the mobile power, plug the Type-C cable into the USB-C port and connect the other end of the cable to a computer, car charger or wall charger to charge the mobile power. While charging, the power indicator will flash and show the remaining power level.

Charging the device

Using the device's charging cable (not included), connecting the device to the USB-C output or the mobile power will automatically start charging the device and the LED power indicator will show the remaining power of the mobile power. When charging is complete, you can double-tap the button or turn off the device automatically after 35 seconds.

- Click the power button to display the current power level
- Double-click the power button, the device turns off.
- Long press the power button to enter the low current mode, long press again to exit the low current mode.

FCC Caution.

(1) § 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Changes or modification warning

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
