2、Contact the seller to download the device management app and bind the device. Enable phone Bluetooth and place the device near the phone for quick, successful binding.

3、Instructions for finding a mobile phone function:

- Turn on phone Bluetooth and keep TAG within range;
- Grant app permissions and keep it running.
- Double-click TAG's hidden button (15s ringtone), Phone rings if signal received; re-click to resend if not located in 15s.

5. Battery Replacement Instructions

- 1、The unit uses a replaceable CR2032 battery.
- 2、Please use your fingernails or a pry bar to separate the upper and lower cover through the grooves on the side.
- 3、Press the battery cover with your thumb, press down and rotate counterclockwise.
- 4、Remove the battery cover and replace the battery. After replacing the new battery, you will hear two beeps and see the indicator light flash briefly, which indicates that the device is working properly.
- 5、When closing, put the battery cover back in place, rotate it clockwise, and then close the cover.

- Remove and immediately recycle or dispose of used batteries according to local regulations, and keep away from children and animals. Do NOT dispose of batteries in household rubbish or incinerate.
 - Even used batteries may cause severe injury or death.
 - Call a local poison control center for treatment information.
 - Use the specified CR2032 battery (nominal voltage: 3V).
 - Non-rechargeable batteries are not to be recharged.
 - Do not force discharge, recharge, disassemble, heat or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.
 - Ensure that the batteries are installed correctly according to polarity (+ and -).
 - Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.
 - Always completely secure the battery compartment.
- If the battery compartment does not close securely, stop using the product, remove the battery and keep it away from children and animals.

⚠ WARNING

- **INGESTION HAZARD:** This product contains a button cell or coin battery.
- **DEATH** or serious injury can occur if ingested.
- A swallowed button cell or coin battery can cause **Internal Chemical Burns** in as little as **2 hours**.
- **KEEP** new and used batteries **OUT OF REACH of CHILDREN**
- **Seek immediate medical attention** if a battery is suspected to be swallowed or inserted inside any part of the body.

6. Important reminders

- 1、Battery life time varies depending on individual usage habits. Frequent audible searching will accelerate the consumption of the battery.
- 2、In order to ensure better dustproof and waterproof, after installation, please be sure to press the upper and lower covers to ensure that the equipment is sealed.
- 3、Because the device adopts crowdsourcing network, there may be a delay in positioning, such as the management platform and APP no data, you can wait for half an hour to refresh the location information. And try to open the device in the place where there are more cell phones.
- 4、Please do not disassemble the device, improper handling by non-professionals may cause damage to the device.
- 5、The product may present a choking hazard to small children and animals.

7. Use and care

- 1、Don't use your product in temperatures below 0°C or above 60°C. Don't store/transport your product in temperatures below -20°C or above 70°C.
- 2、Don't drop, disassemble, puncture, crush or expose your product to fire.
- 3、To clean your product, use a dry, soft cloth.

8. Regulatory Safety Information

FCC Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

CE Statement

Hereby, [Shenzhen Jimi IoT Co., Ltd.] declares that the radio equipment type PB717 is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address:
