Follow the tips below for the best SmartLock experience.

- Change your SmartLock battery every 15 months to get the best finding experience.
- Share your SmartLock with family inside the Find My app, so they can help you find your luggage.
- Still having trouble? Reach out to our support team at support@statik.com.

Features of the Apple Find My app
Statik SmartLock works with the Apple Find My network. The Apple Find My network provides an easy, secure way to locate compatible personal items on a map using the Find My app on your iPhone, iPad, iPod touch, or Mac. Simply pair your compatible product with the Apple Find My app to view it right alongside your Apple devices. If your item ever goes missing, you can put it in Lost Mode to display a message and contact information to anyone who might find it. The Find My network is encrypted and anonymous, so no one else, not even Apple or the maker of your personal item, can view its location.

Locate your SmartLock

1. Open Find My app and select the "items" tab.
2. Tap on your SmartLock.
3. Tap "Play Sound" to trigger the SmartLock locator sound.
4. Tap "Stop Sound" to stop the sound once your SmartLock is found.

"Left Behind" Notifications

To enable "Left Behind" Notifications:

1. Open Find My app and select the "items" tab.
2. Tap on your SmartLock.
3. Under "Notifications" enable the "Notify When Left Behind" toggle.
4. You will now receive a notification when your SmartLock is no longer in range of your device.

How to Enable & Disable the Apple Find My network

To check if the Find My network is enabled:
1. Double-click the Find My button.

To enable the Find My network:
1. Press and hold the Find My button for 5 seconds.

To disable the Find My network:
1. When the device is on, press the device button 5 times in 2 seconds. The device will beep, and the device will be powered off.

Removing SmartLock from Find My app

1. To remove your SmartLock from the Find My app, select "Remove item".
2. After removing SmartLock, the device will beep three times. The device will not shut down and is in the pairing state. If there is no re-pairing within 10 minutes, the SmartLock will leave the pairing state. If you need to pair SmartLock at this time, you need to click the Find My button once, the device will sound. At this time, the SmartLock enters the pairing state and can be paired with the Find My app again.

Privacy

The Apple Find My network uses advanced encryption to ensure that no one else, not even Apple or Statik can view the location of your Statik SmartLock.

Requirements

To use the Find My app to locate this item, the latest version of iOS, iPadOS, or macOS is recommended.

How to Find the Serial Number

To find your device's serial number, follow the steps below:

- Via the Find My app:
  - Open the Find My app, tap the Items tab, and tap your SmartLock.
  - Scroll to the bottom of the Item Detail card.
    The serial number is displayed below the manufacturer.
- On the device:
  - The serial number is printed on the side of the SmartLock.

How to Perform a Factory Reset

- When the device is turned on, press the Find My button 4 times in a row, the device plays a sound
- Press and hold the Find My button as soon as you hear the sound. After two seconds, the SmartLock will emit a "tick, tick tick" sound. Do NOT release the button and continue holding for about 8 seconds.
- The SmartLock will play a sound again. Release the button and the factory reset is complete.

Use And Care

Statik SmartLock is water-resistant but not waterproof. We encourage you to bring your Statik SmartLock along on most of your wild adventures, but deep-sea explorations (and the like) are not recommended. It is not recommended that you expose the Statik SmartLock to extreme hot or cold temperatures.
