

1. Speaker
2. Micro USB port
3. Power Switch/Call answering/Wireless Remote Shutter
4. LED indicator
5. Strap hole
6. Microphone

SPECIFICATION

|                        |                  |
|------------------------|------------------|
| Model                  | BTS0011          |
| Power Rating           | 1W               |
| Transmitting Frequency | 150Hz-16KHz      |
| THD                    | <1%              |
| S/N                    | ≥75DB            |
| Speaker Parameter      | 4Ω diameter 30mm |
| Battery                | 3.7V/140mAh      |
| BT Version             | V4.2             |
| Product Size           | φ35.6x25.1mm     |
| Weight                 | 21g              |

CHARGING THE BATTERY

- 1.Insert the charging cable into the Micro USB input port, connect the USB plug into USB power terminal. The LED indicator will turn red.
- 2.After charging is completed, the red LED indicator will turn off.
- Note: When music sound becomes lower and you hear the repeated warning tone "DI DI" around 30 seconds interval, charge the speaker.

- BT pairing for music/phone call/camera remote shutter
- 1.Turn on the speaker by pressing "Ⓢ" button for 3 seconds. The pairing prompt can be heard and the blue LED indicator light will start flashing.
2. Turn on the BT on your cellphone or other mobile device.
3. Search for"BTS0011" and select to pair. After pairing was successful, the LED indicator will remain blue and the prompt can be heard.
- When there is an incoming call press to answer. In different modes, it has different functions: In music mode, you can increase the volume by pressing power switch. In camera mode, you can take photos by pressing power switch.
4. Turn off the speaker by pressing"Ⓢ"button for 4 seconds. It will turn off automatically after 10 minutes when disconnected.

Note: In camera mode, taking photos function of wireless speaker can be affected by cellphone system, therefore some photo taking functions may not be available. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Please note that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

--Reorient or relocate the receiving antenna.

--Increase the separation between the equipment and

receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

--Consult the dealer or an experienced radio/TV technician for help.

#### FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

#### Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
