-1-

DISPOSAL

Dispose of all product parts in accordance with local regulation. If you have any problem, please consult your local authorities. The battery inside Muzo needs to be recycled. Do not attempt to replace the built-in battery yourself.

CARE & PROTECTION

Store your Muzo in the protective case when not in use. Protect it from dirt, moisture, dust, bumping, jostling, and otherwise nasty treatment. Keep it inside the included case when transporting the Muzo. If Muzo gets dirty, wipe down with damp towel.

CUSTOMER SERVICE

If you have Muzo using problem, or a question for which you can't find an answer in the instruction manual, please email Muzo Service Centre at info.muzo@celestialtribe.com

Thank you for choosing Muzo!

-10-

CHARGING

-9-

1. Prior to use your Muzo in the wireless mode for the first time, please completely charge the built-in battery.
2. You need to charge Muzo when the red indicator flashes up which refers to the low battery.
3. Plug the included Micro-USB cord into Muzo Micro-USB port.
4. Connect to USB power source such as computer USB port.
5. When charging, the red indicator is constantly on; it turns to green when the built-in battery is fully charged.

§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

*** RF warning for Portable device:**

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
