	Page 4
Header	Step 1: CHARGING YOUR SPEAKER
	When the Bluetooth speaker battery power is low, it will issue a low battery tone. Plug the USB-C tip of your charging cable into your speaker and another USB-A tip into a compatible port (such as a wall charger, car charger, or computer). Light is RED while charging and turns OFF when fully charged. Allow your speaker to fully charge for 2 hours prior to first use. Use the included charging cable to connect your MORSO speaker to a compatible charging port. *USB charger not included. Requires at least a 5V/1A charger.
	Page 5
Header	Step 2: PAIRING YOUR DEVICE
	When you power on your MORSO speaker for the first time, it will automatically enter pairing mode. You will see the BLUE indicator light flashing and can then search for "pairing name" in your devices Bluetooth settings. When your device is paired you will hear a connection tone. If you would like to pair another device to your

	MORSO speaker, you can do it like the following below. Turn off the Bluetooth for the device that is already connected. You will then hear a tone to know it has been disconnected and see the indicator light flashing. You can now search for "pairing name" in your other devices settings to connect.
	Page 6
Header	Step 3: BLAST THE SOUND!
	Use the POWER BUTTON to power your MORSO speaker on/off, control music, switch mode, and answer, end, or reject phone calls. Use the + and - buttons to adjust volume and skip songs. *Your MORSO will power off after 10 minutes if a device is not connected, your device is out of range, or your Bluetooth is turned off.
	Page 7
Header	Step 4: PAIRING WITH ANOTHER MORSO SPEAKER
	To use the MORSO's TWS setting, you will need to ensure the other MORSO speaker is within range and that neither speaker is connected to a smartphone, then double press the "+" Button on one speaker by random to begin pairing. when you see one speaker's indicator light flashing, and one speaker's indicator light keep solid, followed by the connection tone your speakers are paired, and you may now pair them with your phone by selecting "pairing name" in your Bluetooth settings. *When speakers are in TWS mode, all functions are linked. Meaning, you only need to use controls on one of the speakers to control both. Under TWS pairing mode, double press "+" Button again to disconnect two speakers.

	FCC Requirements if applicable
	FCC ID: 2AMPL-MORSOV2 This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
