Precautions - Please read the user manual before using, and keep it for your future reference. - Please ensure to fully charge the product on its first use. - Charge the product when left unused for over 2 weeks. - Use only certified chargers supplied by qualified manufacturers. - If your device cannot locate MI Bluetooth Headset Basic, please check if the headset is in pairing mode. The headset will turn off if it has been put for a long time. Restart your phone or the headset, or factory reset the headset, to remove any program errors. Warnings - Do not disassemble or configure the product in case of fire. Electric shock may damage the product permanently. - Do not expose the product to environments where temperature is extreme (lower than 0°C or higher than 45°C). - Keep the LED indicator away from the eyes of children or animals. - Do not use the product during thunderstorms. Thunderstorm may cause the product to malfunction and result in an increased risk of electric shock. - Do not wipe the product with oil and other volatile liquid. - Keep away from water or other liquid.	Federal Communications Commission Declaration of Conformity This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: - This device may not cause harmful interference, and - This device must accept any interference received, including interference that may cause undesired operation. Regulatory Notice for Users in USA USA – Federal Communications Commission (FCC) This device is granted with following FCC ID by Federal Communications Commission (FCC): YOLYUJ02LM WARNING: This product contains a chemical known to the State of California to cause cancer or other reproductive harm.	FCC Statement The equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates noise and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, this does not guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and the receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: - This device may not cause harmful interference, and - This device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Go to www.mi.com to learn more.
