

## EXHIBIT C - EUT INTERNAL PHOTOGRAPHS

Uncover

5G Chain 0

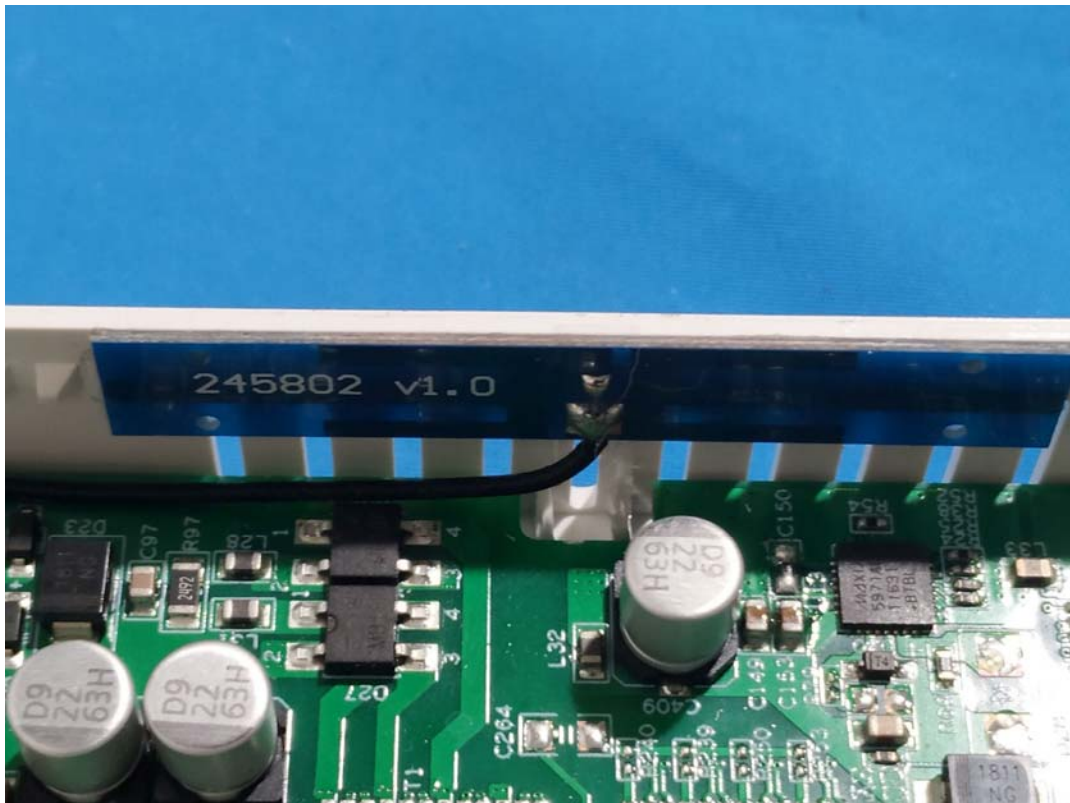

A close-up photograph of the RFCCOM 1530 component. The component is a black rectangular module with the text "RFCCOM" and "1530" printed in white. It is mounted on a green printed circuit board (PCB). A black cable is connected to the central pin of the component. The PCB features a green solder mask with yellow and orange conductive traces. A circular hole is visible on the left side of the PCB. The component is secured with a white plastic clip.
