ConnectediO

Declaration Letter

FCC ID: 2AMRIER2000TNAC1
IC ID: 22975-ER2000TNAC1

This product has LTE (4G) and Wi-Fi function.
It uses an external antenna (dipole antenna) and a standard antenna connector (SMA type) which is not complied with the FCC 15.203 requirement.

However, this equipment needs a professional installation (Machine-to-machine application) to install it in a vending machine, end-users can not operate it.

There is no doubt that the standard antenna cannot be changed by end-users.

Sincerely ,

David Hargis / VP of Engineering and Operations
