The image shows a black, handheld electronic device, possibly a surveying level or a similar precision instrument. It is positioned vertically next to a ruler for scale. The ruler has markings in both inches (0 to 12) and centimeters (0 to 30). The device itself is black with a small, rectangular display screen near the top. Below the screen, there are several buttons and a small, circular feature. The device has a slightly curved, ergonomic shape. The background is a plain, light-colored surface.
