Quick Start Guide

Power Bank

iottie

Charging Your Devices

1. Hold the power bank against the back of your MagSafe iPhone or MagSafe compatible case.
2. The power bank will automatically align for instant charging.
3. For fast-charging, connect the USB C-to-C cable from the power bank to your device.

Recharging Power Bank

1. Connect the provided or any other USB-C cable to the power bank.
2. Plug the other end of the cable into a 20W or higher wall adapter for optimal charging, then insert it into a power outlet.
3. The power bank will begin recharging immediately—monitor the LED power display to track progress until it reaches 100%.

Charger votre appareil

1. Tenez la banque d'alimentation contre l'arrière de votre iPhone MagSafe ou de votre étui compatible MagSafe.
2. La banque d'alimentation s'alignera automatiquement pour une charge instantanée.
3. Pour une charge rapide, connectez le câble USB C à C de la banque d'alimentation à votre appareil.

Recharge de la banque d'alimentation

1. Connectez le câble fourni ou tout autre câble USB-C à la banque d'alimentation.
2. Branchez l'autre extrémité du câble dans un adaptateur mural de 20 W ou plus pour une charge optimale, puis insérez-le dans une prise de courant.
3. La banque d'alimentation commencera à se recharger immédiatement : surveillez l'affichage de puissance LED pour suivre la progression jusqu'à ce qu'elle atteigne 100 %.

Ricarica del tuo dispositivo

1. Tieni il power bank contro il retro del tuo iPhone MagSafe o della custodia compatibile MagSafe.
2. Il power bank si allineerà automaticamente per la ricarica istantanea.
3. Per una ricarica rapida, collega il cavo USB C-to-C dal power bank al tuo dispositivo.

Ricaricare il Powerbank

1. Collega il cavo USB-C in dotazione o qualsiasi altro cavo USB-C al power bank.
2. Collega l'altra estremità del cavo a un adattatore a muro da 20 W o superiore per una ricarica ottimale, quindi inseriscilo in una presa di corrente.
3. Il power bank inizierà a ricaricarsi immediatamente: monitora il display LED di alimentazione per monitorare i progressi fino a raggiungere il 100%.

Laden Sie Ihr Gerät auf

1. Halten Sie die Powerbank an die Rückseite Ihres MagSafe iPhone oder einer MagSafe-kompatiblen Hülle.
2. Die Powerbank richtet sich automatisch für den sofortigen Ladevorgang aus.
3. Zum Schnellladen schließen Sie das USB-C-zu-C-Kabel der Powerbank an Ihr Gerät an.

Aufladen der Powerbank

1. Verbinden Sie das mitgelieferte oder ein anderes USB-C-Kabel mit der Powerbank.
2. Stecken Sie das andere Ende des Kabels für eine optimale Aufladung in einen Wandadapter mit 20 W oder mehr und stecken Sie es dann in eine Steckdose.
3. Die Power Bank beginnt sofort mit dem Aufladen. Überwachen Sie die LED-Leistungsanzeige, um den Fortschritt zu verfolgen, bis sie 100 % erreicht.

Cargando tu dispositivo

1. Sostenga el banco de energía contra la parte posterior de su iPhone MagSafe o funda compatible con MagSafe.
2. El banco de energía se alineará automáticamente para una carga instantánea.
3. Para una carga rápida, conecte el cable USB C a C del banco de energía a su dispositivo.

Recarga del banco de energía

1. Conecte el cable USB-C proporcionado o cualquier otro al banco de energía.
2. Conecte el otro extremo del cable a un adaptador de pared de 20 W o superior para una carga óptima, luego insértelo en una toma de corriente.
3. El banco de energía comenzará a recargarse inmediatamente; monitorea la pantalla LED de energía para seguir el progreso hasta que alcance el 100%.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
