TMICE Connection Guide for Laptop	3 Connect the mouse to the laptop 1、BT1 (Bluetooth) Connection Guide <1>Turn on the power switch (no receiver required), short press the mode button and select BT1(the left white indicator flashes slowly)Long press the mode button till the left white indicator flashes quickly. Open the BT interface on your computer and choose to add new BT device. Find and connect the BT named "TMICE W2 3.0" or "TMICE W2 5.0". Connection is completed when tip of "Connected" pops up. 	3 Connect the mouse to the laptop 2、BT2 (Bluetooth) Connection Guide <1> short press the mode button and select BT2(the middle white indicator flashes slowly)Long press the mode button till the middle white indicator flashes quickly. Open the BT interface on your computer and choose to add new BT device. Find and connect the BT named "TMICE W2 3.0" or "TMICE W2 5.0". Connection is completed when tip of "Connected" pops up. 	3 Connect the mouse to the laptop 3、BT3 (Bluetooth) Connection Guide <1> Short press the mode button and select BT3(the right white indicator flashes slowly)Long press the mode button till the right white indicator flashes quickly. Open the BT interface on your computer and choose to add new BT device. Find and connect the BT named "TMICE W2 3.0" or "TMICE W2 5.0". Connection is completed when tip of "Connected" pops up. 	3 Connect the earphone to the laptop 3、Earphone (Bluetooth) Connection Guide <1> Take the USB receiver out of the back cover of the mouse,and insert it correctly into the USB port on the computer. Thenturn on the power switch and the DPI indicator flashes white. <2> Take out the earphone and choose to connect the BT device named "TMICE W2 TWS" on the computer. Connection is completed when tip of "Connected" pops up. (Be sure the mouse is kept "on" and awake). 	TMICE Connection Guide for Smart Phone	4 Connect the mouse to the smart phone 1、BT1 (Bluetooth) connection guide <1><1>Turn on the power switch (no receiver required), short press the mode button and select BT1(the left white indicator flashes slowly)Long press the mode button till the left white indicator flashes quickly. Open the BT interface on your phone and choose to connect the BT named "TMICE W2 3.0" or "TMICE W2 5.0". Connection is completed when tip of "Connected" pops up. 	4 Connect the mouse to the smart phone 2、BT2 (Bluetooth) connection guide <1> Short press the mode button and select BT2(the middle white indicator flashes slowly)Long press the mode button till the middle white indicator flashes quickly. Open the BT interface on your computer and choose to connect the BT named "TMICE W2 3.0" or "TMICE W2 5.0". Connection is completed when tip of "Connected" pops up. 	4 Connect the mouse to the smart phone 3、BT3 (Bluetooth) connection guide <1> Short press the mode button and select BT3(the right white indicator flashes slowly)Long press the mode button till the right white indicator flashes quickly. Open the BT interface on your computer and choose to connect the BT named "TMICE W2 3.0" or "TMICE W2 5.0". Connection is completed when tip of "Connected" pops up. 	5 Connect the earphone to the smart phone 1、Connected with IOS Device 1.1 <1> Turn on the Bluetooth function of the mobile phone, and take the earphone out of the charging case, then the Bluetooth named "TMICE W2 TWS" will pop up. Click it for connection and and use.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help. NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction. 1 year limited warranty.	9 Product Specification Product name: Bluetooth mouse with Model: W2 DPI: 800/1200(default)/1600/2400/3200DPI Size: 108.58"65.84"37.38mm Weight: 90g Rated input: 3.7v Rated power: 0.055w Lithium battery capacity: 500mA Product name: Earbuds Working distance: >10 m (empty space) Frequency: 2402~2480MHz Charging current: <30mA Charging voltage: 5VDC Capacity: 30mAh Fully charging time:<2h	10 Packing List & Compatibility  1.
