

Remote control instruction

1. Before first using, please code first, steps are as following:

- (1) Press and hold car select button, until remote indicator light starts to flash.
- (2) Turn on the power, remote indicator light will be off, indicating the successful connection with the car. Release the button, now the remote control can be used.
- (3) If remote indicator light is still flashing and turn on, try again and repeat step 1-2.

2. Please select the proper speed during the driving. Manual mode or remote mode all can be selected.

- (1) remote mode: press and hold the speed select button to chose the proper speed. (1 LED: slow speed; 2 LED: middle speed; 3 LED: fast speed.)
- (2) Manual mode: use gear to select high or low speed.

3. The remote control uses slow start technology, it can reduce impact force of the traditional controller and protect baby's spine.

4. The "stop" button on remote control can be used in any situation (after coding successfully), press and hold "stop" button, the car will stop immediately and can't operate whether in manual mode or remote mode. Parents have full control of the remote, it can improve the security.

5. Push the joystick front, the car will go to forward. Push the joystick back, the car will go to backward. No operate, the car will not move.

6. Push the joystick left, the car will go to left. Push the joystick right, the car will go to right.

7. Combine the operation of "left" and "right" button, more fun the children will get during the driving.

FCC Caution.

(1)§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Changes or modification warning

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
