3 IN 1 Fast Wireless Charger

User manual

Notice: To ensure charging 3 devices safely and efficiently, you must use 9V/2A adapter and quick charge cable, if including 15W fast charging phones, you must use 9V/2.7A or 12V/2A adapter and quick charge cable (if not use the appropriate adapter and quick charge cable, the charge may not charge phone fast, or may not charge 3 devices simultaneously, or may even damage the charger)

CE FCC RoHS

Product Introduction

The 3-in-1 wireless charger, a compact charging house, powered from only one outlet, can charge 3 devices simultaneously. When charge your mobile phone, apple watches, and your AirPods 2 or AirPods Pro, just put them on wireless charging will automatically start all this will make your desk clean and tidy, and make your life easier.

The charger is so space-saving designed that can help you integrate your mobile phone intelligent life very well especially for Apple user. Besides, it is fashion that the light ring is so shining and has breathing effect showing the charging state, if you want to turn off or turn on the light, just touch the touch-sensitive key.

Product Appearance

Operation Steps

1. Connect the charger to a 9V/2A adapter through a type-C quick charge cable to switch on the power;
2. Put your phone on and charge;
3. Put the apple watch on and suck it up to charge (roll the watchband to minimize to charge better)
4. Put your earphone case on and charge.

• **Costs:** $\frac{1}{2} \times \text{cost of } 100 \text{ units} = 100 \times 10 = 1000$

- Green light is on: Standby mode or not charging the phone
- Blue light is breathing: Wireless charging the phone
- Blue and Green light flash: Foreign body is detected or the phone is misaligned (the phone charging will automatically stop)

2. If you need to clean the charger, please make sure it is not switched on the power
3. Using Environment temperature remains 0-45°C.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
