FWS106

Opro9 TWS mini
True wireless Bluetooth NC earphones

User Manual

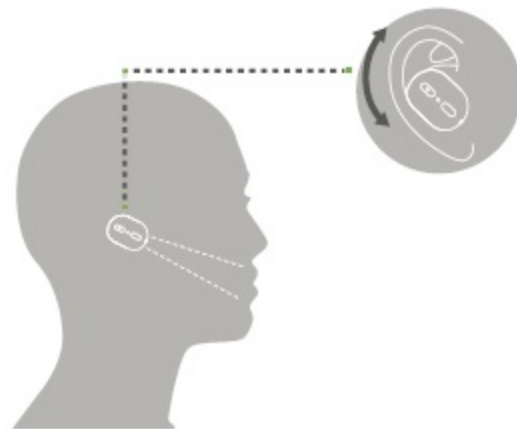

Overview

a Choose EarTips

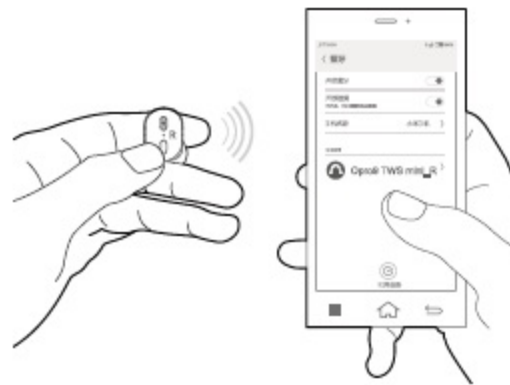

We recommend you to try Middle EarTips first as they fit most people.

b How to Wear

Adjust the end towards your mouth.

TWS Mode

Re-insert both EarBuds into charging case to activate them then take out from the case and they will auto power on and pair with each other. Right EarBud will auto enter pairing mode when LED on left EarBud turns on. On the phone, search for Opro9 TWS mini_R and tap to connect to both EarBuds.

(Try the following steps if you fail to connect cellphone to both EarBuds)

In the off state, the left and right earphones simultaneously press and hold the function key for 20s until the red and white lights alternately flash off, release the function key, then put the left and right earphones into the charging box to charge the homing, and then the ears are picked up from the charging box. Automatic pairing, after the pairing is successful, the left ear is turned off and the right ear enters the pairing state (the red and white lights alternately flash), and the mobile phone searches for the connection of the right ear to complete the connection between the ear and the mobile phone.

55mm

TWS Mode
