Disposal of your old product and battery

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

This symbol on a product means that the product is covered by European Directive 2012/19/EU.

This symbol on a product means that the product contains a built-in rechargeable battery covered by European Directive 2013/56/EU which cannot be disposed of with normal household waste.

We strongly advise you to take your product to an official collection point. Inform yourself about the local separate collection system for electrical and electronic products and rechargeable batteries. Follow local rules and never dispose of the product and rechargeable batteries with normal household waste. Correct disposal of old products and rechargeable batteries helps prevent negative consequences for the environment and human health.

The packaging is made entirely of recyclable materials, which you may dispose of at local recycling facilities.

The product and packaging materials are recyclable, dispose of it separately for better waste treatment. The Triman logo is valid in France only.

Contact your local refuse disposal authority for more details of how to dispose of your worn-out product.
