WARNING – TO REDUCE THE RISK OF FIRE:

- 1) Do not place any objects such as furniture, papers, clothes, and curtains closer than 3 feet (0.9 m) to the front of the heater and keep them away from the sides and rear when the heater is plugged in.
- 2) Do not place the heater near a bed because objects such as pillows or blankets can fall off the bed and be ignited by the heater.
- 3) Always unplug heater when not in use.
- 4) Always plug heaters directly into a wall outlet/receptacle. Never use with an extension cord or relocatable power tap (outlet/power strip).
- 5) Check your heater cord and plug connections. A loose fitting outlet can cause the plug to overheat or cause a fire. Be sure plug fits tight in the outlet. Check frequently during use to make sure plug and outlet are not hot. If so, discontinue using heater and have outlet replaced by a qualified electrician.

Note: Heaters draw more current than small appliances, overheating of the outlet may occur even if it has not occurred with the other appliances.

DO NOT REMOVE THIS TAG!

WARNING: TO REDUCE THE RISK OF FIRE– KEEP COMBUSTIBLE MATERIAL SUCH AS FURNITURE, PAPERS, CLOTHES, AND CURTAINS AT LEAST 3 FEET (0.9 M) FROM THE FRONT OF THE HEATER AND AWAY FROM THE SIDES AND REAR.

WARNING: RISK OF FIRE — KEEP COMBUSTIBLE MATERIAL AWAY FROM FRONT OF HEATER.
