

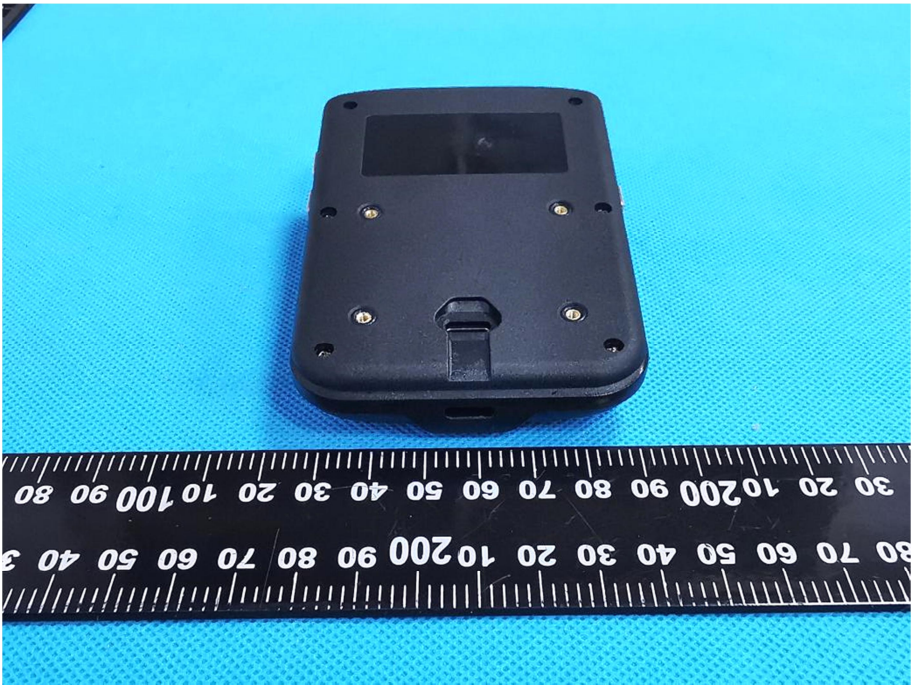

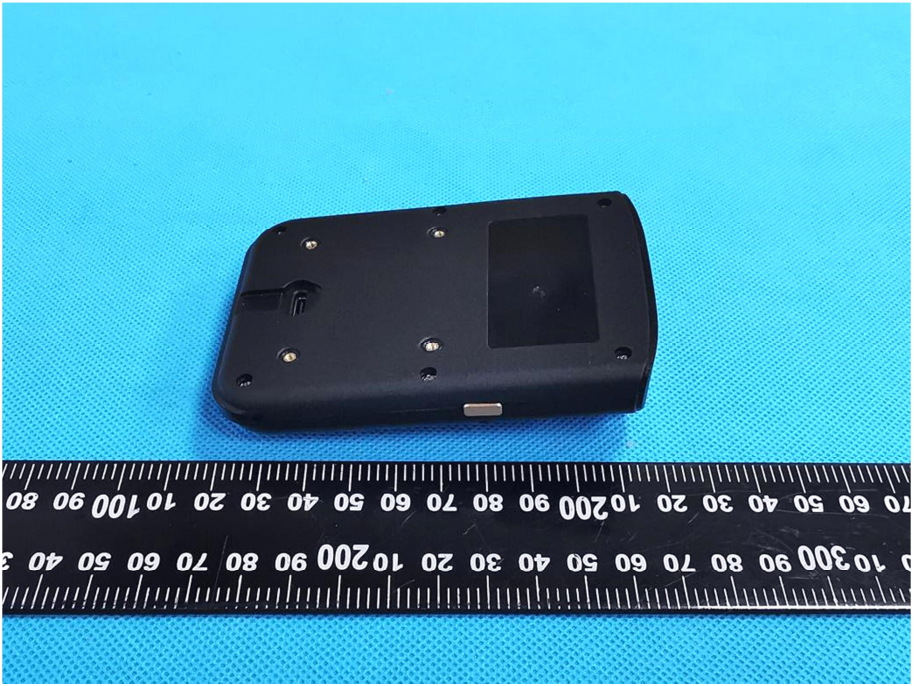

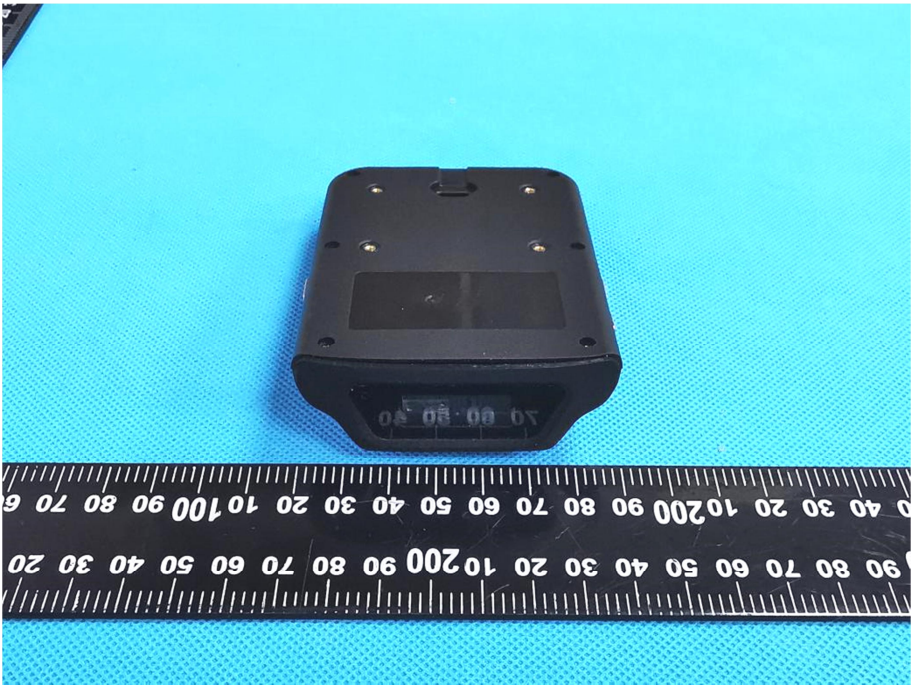

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

EUT View 1	 A photograph showing the front view of a black rectangular electronic device (EUT) and a coiled black USB cable. The device has a small screen at the top and several buttons below it. A ruler is placed horizontally below the device and vertically to its left for scale. The background is a light blue textured surface.
EUT View 2	 A photograph showing the front view of the same black rectangular electronic device (EUT) and a coiled black USB cable. The device has a small screen at the top and several buttons below it. A ruler is placed horizontally below the device and vertically to its left for scale. The background is a light blue textured surface.

EUT View 3	 A photograph showing the back of a black, rectangular electronic device. The device has a small, dark rectangular area in the upper center, possibly a camera or sensor. Below this area, there are four small, circular gold-colored contacts arranged in a 2x2 grid. At the bottom center, there is a small, rectangular port. The device is placed on a blue textured surface. A black ruler with white markings is positioned horizontally below the device, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). A vertical ruler is also visible on the left side of the device, showing measurements in millimeters (0 to 70 mm) and centimeters (0 to 7 cm).
EUT View 4	 A photograph showing the front of the same black, rectangular electronic device. The device has a small, rectangular port at the top center. Below this port, there are four small, circular gold-colored contacts arranged in a 2x2 grid. The device is placed on a blue textured surface. A black ruler with white markings is positioned horizontally below the device, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). A vertical ruler is also visible on the left side of the device, showing measurements in millimeters (0 to 70 mm) and centimeters (0 to 7 cm).

EUT View 5	 A black electronic device, likely a mobile phone, is shown from the back. It has a small rectangular screen at the top, a central latch or button, and several small circular holes. The device is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in centimeters, with the device's width spanning approximately 10 cm.
EUT View 6	 A black electronic device, likely a mobile phone, is shown from the side. It has a small rectangular screen at the top, a central latch or button, and several small circular holes. The device is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in centimeters, with the device's height spanning approximately 5 cm.

EUT View 7	 A black electronic device, possibly a handheld device or a small display unit, is shown from a top-down perspective. It has a rectangular shape with rounded corners. The front face features a small, dark rectangular screen in the center. Above the screen, there are several small, circular buttons or indicators. Below the screen, there are two larger, rectangular buttons. The device is placed on a blue, textured surface. A ruler is positioned horizontally below the device, showing measurements in centimeters. The ruler is marked from 0 to 100 cm, with major markings every 10 cm and minor markings every 1 mm.
EUT View 8	 A black electronic device, similar to the one in View 7, is shown from a different angle. It has a rectangular shape with rounded corners. The front face features a small, dark rectangular screen in the center. Above the screen, there are several small, circular buttons or indicators. Below the screen, there are two larger, rectangular buttons. The device is placed on a blue, textured surface. A ruler is positioned horizontally below the device, showing measurements in centimeters. The ruler is marked from 0 to 100 cm, with major markings every 10 cm and minor markings every 1 mm.
