## Warranty TERMS & POLICY

We warrants all products to be of the highest quality in material, craftsmanship and service for a minimum of 1 year. This warranty is start from the date of purchase. We will replace any product found to be defective due to manufacturer flaws based on eligibility; refunds are available within the first 30 days after purchase. This warranty extends only to personal use and does not extend to any product that has been used for commercial, rental, or any other use in which the product is not intended for. There are no warranties other than the warranties expressly set forth with each product. This warranty is non-transferable. We are not responsible in any way for any damages, losses or inconveniences caused by equipment failure or by user negligence, abuse, or use non-compliant with the user manual or any additional safety, use, or warnings included in the product packing and manual.

This warranty does not apply to the following.  
Damage due to abuse, accident, alteration, misuse, tampering or vandalism.  
Improper or inadequate maintenance.  
Damage in return transit.  
Unsupervised use by children under 18 years of age.

**ALL EXPRESSED AND IMPLIED WARRANTIES, INCLUDING THE WARRANTY OF MERCHANTABILITY, ARE LIMITED TO THE PERIOD OF THE LIMITED WARRANTY.**

#### Step 6

Open your APP and click the “Confirm indicator rapidly link”

#### Step 7

Make sure that your device is close enough to your WiFi router(The smart WiFi devices only support 2.4GHz), enter your WiFi password, click “Confirm”and it shows “Connecting Now”.

#### Step 8

If the device is connected successfully then the indicator light will no longer flash. Then you can control the smart plug to turn ON/OFF.

### Adding a New Device in AP Mode

- \*Make sure the WiFi device is standby( the green light of WiFi device flashes 1 time in 2 seconds) after plug in the socket.
- \*Press “+” in the main menu of app
- \*Click “AP Mode” and press “Next Step” in Add Device
- \*Select WiFi and input WiFi password, press “Next” in Set up WiFi for device
- \*Press Connect now
- \*Go to WLAN setting in your smart phone and select the “Smart Life” for your WiFi, no need to input password once you select the “Smart Life” (you can directly to connect it if your OS is Android)
- \*Go back to app and press “Connect” Device name is “Smart Life”
- \*Confirm Device

Once App is installed on your device and you have added your smart device to your app you will be able to control it.

**FCC Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

**FCC Radiation Exposure Statement:**

The equipment complies with FCC Radiation exposure limits set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
