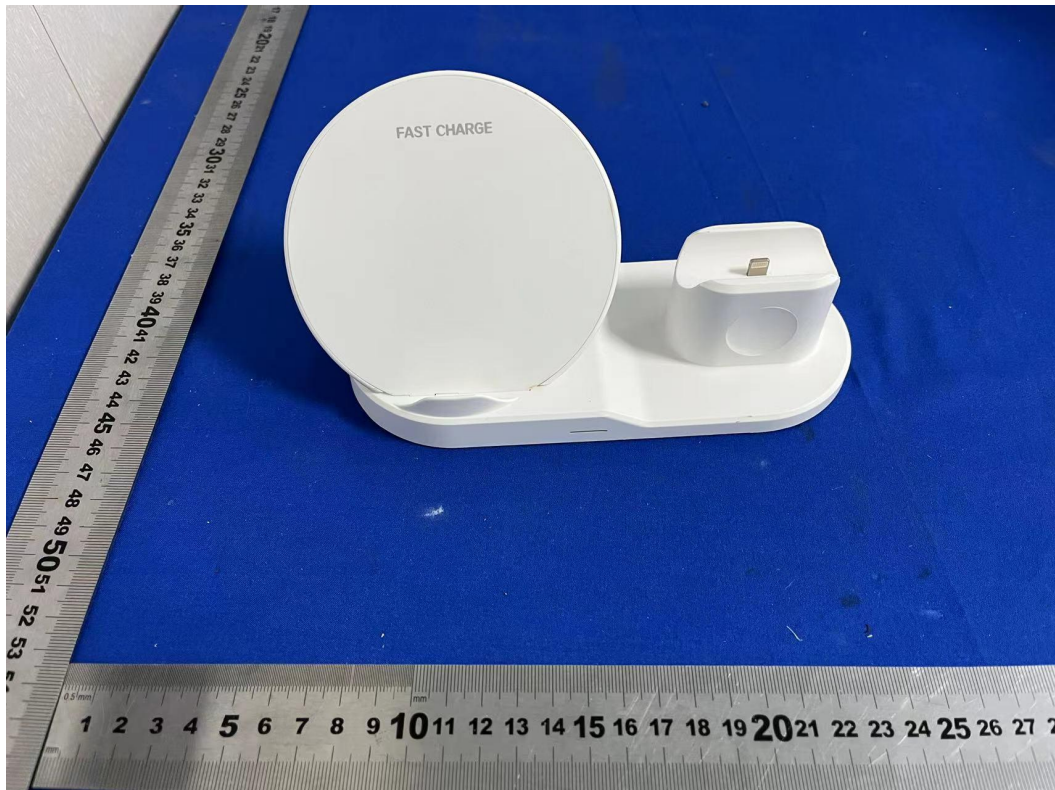

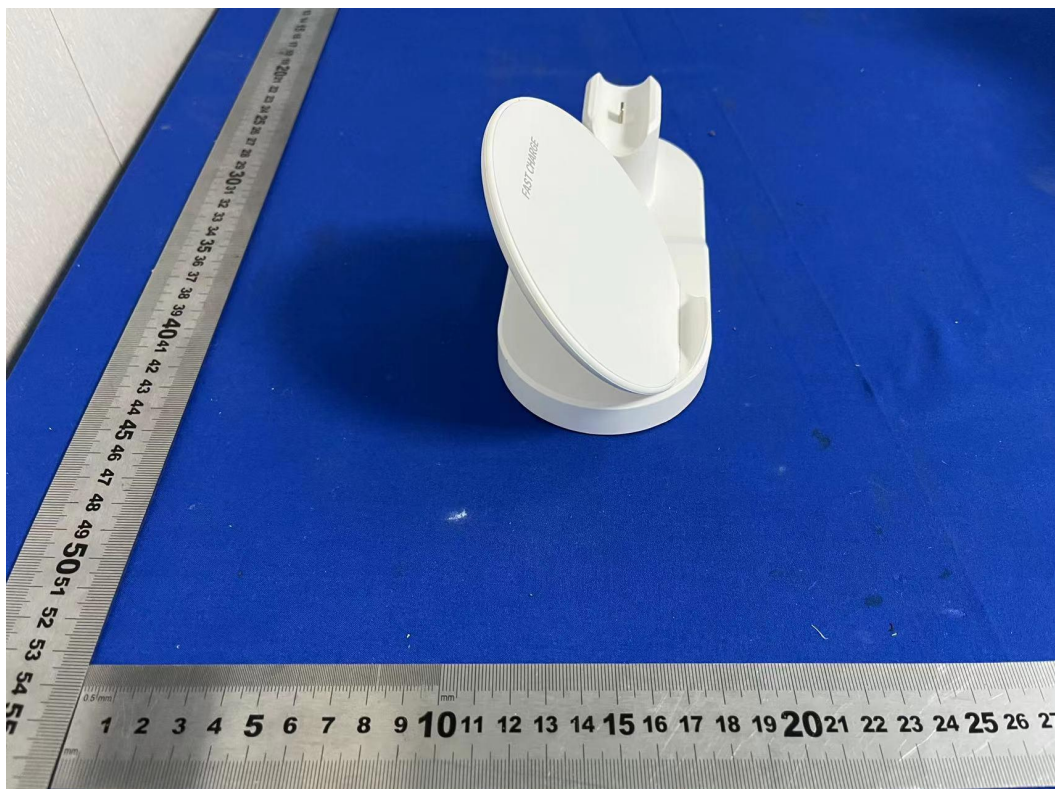

Photo 2

A white, curved electronic device, possibly a sensor or actuator, resting on a blue surface next to a ruler. The device has a flat base with a small rectangular cutout on the right side. A vertical rectangular block is attached to the left side of the base, featuring a small, square, copper-colored component on its top surface. A white, curved, dome-like structure is mounted on the right side of the base. A ruler is placed horizontally below the device, showing measurements in centimeters (1 to 30) and inches (1 to 3). Another ruler is placed vertically to the left of the device, showing measurements in centimeters (1 to 52) and inches (1 to 2).
