

Trade Name:
All Seasons Feeders

Model:
FeedSync Remote

FCC STATEMENT

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help
- Important Note:

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FeedSync Remote

Installation Instructions

HARDWARE INSTALLATION INSTRUCTIONS

If using the All Seasons Feeders brand control box (Recommended):

Start

- 1. Using a screw driver and hammer, knock out the plug located on the bottom center of the control box.

Install Antenna

- 2. Remove the LARGE nut on the antenna side of the FeedSync Remote and insert it through the hole from inside the control box.
- 3. Re-install the LARGE nut to secure the FeedSync Remote to the inside bottom of the control box.
- 4. Install the antenna.

Connect Wires

- 5. Connect the FeedSync Remote + - wires (red/black) to the battery.
- 6. Connect the Solar Panel + - wires to the battery (use the piggy-back terminals on the I-Feed Remote wires).
- 7. Connect the Timer + - wires to the battery (using the piggy-back terminals on the Solar Panel).
- 8. Connect the Timer output wires to the FeedSync Remote wires marked "TIMER."
- 9. Connect the Motor input wires to the FeedSync Remote wires marked "MOTOR."

Test

- 10. Test your feeder timer to ensure your timer is set up correctly and functioning properly.

For all other control boxes and custom configurations:

- 1. Identify the location in which you would like to install the FeedSync Remote (for best performance, ensure antenna is visible from shooting area / hunting blind direction).
- 2. Using a 9/16" drill bit, drill a hole in the control box.
- 3. Follow steps 2-10 from the FeedSync Feeder control box instructions.

MOBILE APPLICATION INSTALLATION INSTRUCTIONS

Attention! Download the FeedSync Remote mobile application by searching "FeedSync Remote" in the iOS AppStore or Google Play Store.

To Pair the FeedSync Remote with your phone:

- 1. Download the FeedSync app from iOS AppStore or Google Play Store.
- 2. Open the app and click on Wi-Fi Button in the lower right.
- 3. Select FeedSync Remote from the list of available networks.
- 4. Enter password provided with your FeedSync Remote.
Note: It may require 2 to 3 attempts to establish initial connection.
- 5. Once connected, return to the FeedSync app. You have successfully paired your FeedSync Remote with your phone.
