

PARTS INDICATION:

OPERATION GUIDE

How to pour the wine into the glass pitcher?

Put the filter (P) on the top of the glass pitcher (Q), and then pour the wine into the pitcher (Q) slowly and steadily.

OPERATION GUIDE

Wine decanting procedure:

- 1 Plug the power adapter (R) into the DC in jack (E) and wall outlet.
- 2 Place the pitcher (Q) of the wine on the Winebetter Decanter (A).
- 3 Turn on the power switch (C), the red light of the "⏻" button (J) will be ON.
- 4 Press "⏻" button (J) to turn on the power, after 1 second "HELLO" will be shown on the display (H).
- 5 After 3 seconds, the red light of the "⏻" button (J) will be OFF and the white light of the "BT" button (K) will be ON instead. "BLUETOOTH" will be shown on the display (H). If you wish to play music from your Bluetooth device, follow the **Bluetooth connection**. Otherwise, please follow the below instructions for decanting.
- 6 Select the time of decanting. Press "5" button (L) for 5 minutes run time, then the white light will be ON.
- 7 The run time "5 Mins" will be shown on the display (H) and flashing for 5 times, then the "STOP" on the display (H) will be changed to "05:00" and so the countdown of the timer begins. After one second, the Decanter LED (C) will be ON. Two seconds later, the decanting process begins.

TIP For the optimal wine aeration, 10 minutes run time is recommended. The optimal run time may vary depending on each user's preference.

OPERATION GUIDE

How to increase or decrease the time of decanting?

Repeat the steps 1 - 4 of the "Wine decanting procedure", in step 5 you can press "5" (L), "10" (M), "+" (N) or "-" (O) buttons to adjust the timer.

For example: 8 minutes run time

- 1 Press "5" button (L) and the white light of "5" button is ON, then press "+" button (N) for 3 times until "8 Mins" is shown on the display (H).
- 2 After 5 times of flashing of the display (H), "08:00" will be shown instead of "STOP" and the Decanter LED (C) will be ON. Two seconds later, the decanting process begins.

CAUTION: The decanting process paused after taking out the pitcher (Q) from the decanter for 3 seconds. And the Decanter LED (C) will be OFF automatically. Place the pitcher (Q) back to the decanter will continue the decanting process again until the timer countdown to 00:00.

OPERATION GUIDE

Audio in:

- 1 Turn on the power switch (C), the red light of the "⏻" button (J) will be ON.
- 2 Press "⏻" button (J) to turn on the power, after 1 second "HELLO" will be shown on the display (H).
- 3 Insert the Audio-in cord into the Audio-in jack (F), the decanter will be switched to Audio-in mode automatically. The light of "BT" button (K) will be OFF. "AUX" will be shown on the display (H) instead.
- 4 Take out the Audio-in cord the decanter will resume to Bluetooth mode automatically. "BLUETOOTH" will be shown on the display (H) again.

OPERATION GUIDE

Bluetooth connection:

- 1 Turn on the power switch (C), the red light of the "⏻" button (J) will be ON.
- 2 Press "⏻" button (J) to turn on the power, after 1 second "HELLO" will be shown on the display (H).
- 3 After 3 seconds, the red light of the "⏻" button (J) will be OFF and the white light of the "BT" button (K) will be ON instead. "BLUETOOTH" will be shown on the display (H).
- 4 To pair the decanter with your Bluetooth device, turn on the Bluetooth function of your device, which will be connected to the Winebetter Decanter. And then search "WB-168" from the available list of the device. Click "WB-168" to connect then the light of the "BT" button (K) of the decanter will be flashing. Once the Bluetooth connection is made it will stop flashing and the white light will be ON.

OPERATION GUIDE

Batteries charging

Plug the Power adapter (R) into the wall outlet, the red light of battery charging indicator (I) will be ON. When finished charging, the red light will be OFF. There will be a buzzer to remind you when the batteries have run down.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution:
Changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

FCC Statement:
"This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help."

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment complies with Industry Canada radiation exposure limits set forth for an uncontrolled environment.

Cet équipement est conforme à l'exposition aux rayonnements Industrie Canada limites établies pour un environnement non contrôlé.

CLEANING

- For the glass decanter, when finished, simply rinse with water and let dry .
- Do not clean the product with abrasive cleaners, steel wool, or other abrasive materials.

SPECIFICATION

Model Number:	WB-168
Power supply:	Input: AC 110-240V ~ 50/60Hz Output: DC 9V, 1.0A
Power consumption:	7.5W
Bluetooth version:	Compliant to Bluetooth 4.2 + EDR, backward-compatible with Bluetooth 1.2, 2.0 and 2.1
Speaker:	2" 4Ω 5w x 2
S/N Ratio:	65dB
Battery type:	Li-Polymer
Battery capacity:	7.4V 1800mAh
Frequency response:	200-15kHz
Dimension:	194 (L) x 155 (W) x 60.2 (H) mm
