Example:

5. Charging the Power Bank:

- Insert provided Micro-USB charging cable into power input port. Insert the USB end of the cable into a certified USB AC adapter or USB port of a computer to begin charging. When Charging, LED Indicator will flash BLUE. Once fully charged all LEDs will be illuminate BLUE.

6. Charging mobile phones and other electronic devices using appropriate cable:

- Connect the appropriate charging cable to your phone or mobile device. Connect the other end of the cable to the USB power output and press power button. BLUE LED Indicator will illuminate when charging.
- Remove the USB cable from your mobile device when it is fully charged.

7. Charging Mobile phones and other electronic devices with wireless output:

- Press ON/OFF Button until the BLUE LED indicator turns on. Place wireless charging compatible device in Wireless Charging Pocket. LED will illuminate BLUE when charging. Remove device from Wireless charging pad once device is fully charged.
- Charging pad will turn OFF when idle for 20 seconds.

** Note: In order to charge devices, use only the accessory cable or the cable included with your own device by the manufacturer.

Safety Precautions:

WARNING – When using this product, basic precautions should always be followed, including the following:

1. Read all the instructions before using the product.
2. Never store or use this product in temperatures below 32°F(0°C) or above 115°F(45°C).
3. Do not overcharge your phone. The unit may become hot under excessive use. Remove your phone once it is fully charged. Never charge your phone for more than 7 hours at a time.
4. To reduce the risk of injury, close supervision is required when the product is used near children.
5. Do not expose the device to moisture.
6. Do not use the device in excess of its output rating. Overload outputs above the rating may result in a risk of fire or injury.
7. Do not use the device if damaged or modified.
8. Do not disassemble the device. For repairs, seek a qualified service professional. Incorrect reassembly may result in a risk of fire or injury.
9. Do not expose the device to fire or excessive temperatures above, Exposure to fire or temperatures above 104°F may cause explosion.
10. Ensure that qualified service professionals use only identical replacement parts to ensure product safety.
11. Attachments on the back of your phone can impede the effectiveness of the wireless charger, and lead to overheating.
12. Please remove any attachments from the phone before charging on this device, attachments can interfere with wireless charging and lead to over heating.

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Warning:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IC Statement:

- This device contains licence-exempt transmitter(s)/ receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. (1) This device may not cause interference.
2. (2) This device must accept any interference, including interference that may cause undesired operation of the device.
L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
 1. (1) L' appareil ne doit pas produire de brouillage;
 2. (2) L' appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d' en compromettre le fonctionnement.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
