Single Modular Approval Letter

Date: 2020-04-30

To whom it may concern:

We, Radiocontrolli SRL , hereby request Single Modular Approval for Product:

Transceiver Module

(Model number: RC-S2LP-915, FCC ID: 2ANH5--RC-S2LP-915).

The EUT meets the requirement for modular approval as detailed in FCC 15.212. The requirements are described below:

1. The modular transmitter has its own RF shielding. Please refer to the product photo.
2. The modular transmitter has buffered modulation/data inputs. The buffered data input stage has been integrated into the chip (Model: S2-LP).
3. The modular transmitter has its own power supply regulation.
4. Comply with the antenna requirements of Section 15.203 and 15.204(c), the module has a UFL Antenna with 6 dBi antenna gain.
5. The modular transmitter will be tested in a stand-alone configuration, please refer to the setup photos.
6. The modular transmitter has a label on the module's shielding, labeled with its own FCC ID number: 2ANH5--RC-S2LP-915.
7. Comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. The necessary explanation to be complied with this requirement is contained in the user manual, and please refer to the User Manual.
8. Comply with any applicable RF exposure requirements in its final configuration.

Sincerely Yours,

Signature:
