1 Introduction

1.1 Acknowledgement

Thanks for your purchase of our product GRAVITY 7P, is a 7inches high clear board computer. Its CPU is MT8765, it is based on Android 9.0 operation system, and easy to expand the third application procedure.

The product is designed with various functions, including 4G-LTE, 3G(WCDMA), WIFI, BT, GPS, FM, voice call and so on. It is easy to achieve wireless communication and internet, you have access to surf the internet anytime and anywhere; it is also built with high accuracy GPS module, so that it can be used for navigating through installing map software. There are many sensors which offer you brand-new operation and entertainment; besides, it has camera shooting, which leads electronic consumption to enter into a fresh palm internet entertainment time.

The manual systemically introduces the functions, use techniques and announcements, please read this manual carefully before your operation.

1.2 Announcements

Preventive maintenance

- Please always keep the GRAVITY 7P dry. To avoid the device short trouble, corrosion fault and electric short, please prevent the device, battery and charger from water and moisture, and don't operate the device or charger by wet hand.
- To avoid failure of device, battery and charger, please prevent the device, battery, charger from violent shock or shake.
- To avoid failure of device, battery and charger, please prevent the device, battery, charger of all over heating or too cold circumstance
- Never shock, throw, prod the GRAVITY 7P, or drop, extrude, bend the GRAVITY 7P.
- Never disassemble the device and accessories arbitrarily, otherwise the device and accessories are not in our company warranty scope.

1.3 Safety Instruction

Before the operation of the GRAVITY 7P, please read this chapter and teach your kids about these

information. For further details, please refer to the safety instructions and announcement.

- Never use the GRAVITY 7P when driving car, in order to ensure safe driving.
- In the medical area, please abide by related rules and regulations. Please shut down the GRAVITY 7P when it is near to the medical area.
- To avoid the wireless signal to interrupt the plane- controlled signal, please shut down the GRAVITY 7P or using airplane mode when you are boarding a flight,
- To avoid electronic equipment failure, please shut down the GRAVITY 7P in the vicinage of high-accuracy electronic equipments.
- Please don't disassemble the GRAVITY 7P and accessories. Only authorized agent has access to service the GRAVITY 7P.
- Please keep the GRAVITY 7P far away from magnetic equipments, the radiation of GRAVITY 7P may erase the data stored in the magnetic equipments.
- Never use the GRAVITY 7P in the vicinage of high temperature, inflammable gas (gas station).
- Protect the GRAVITY 7P and accessories from kids reach scope, and avoid the kids to use the GRAVITY 7P without parents' supervision.
- Please comply with related rules and regulations, and respect others' privacy and legal rights while using the GRAVITY 7P.
- Please strictly adhere to related instructions in the manual when using USB cable to ensure the safety of the GRAVITY 7P or PC.
- Never use the GRAVITY 7P in bathroom or other huGRAVITY 7P environment, and please protect the GRAVITY 7P from liquid wash or wet.

1.4 Abbreviation/Terminology

Abbreviation/Terminology	Full Name	Description
MID	Mobile Internet Device	Mobile Internet Terminal
WIFI	Wireless Fidelity	Base on IEEE 802.11b\g\n standard wireless LAN
T F	TransFlash	Alternative name Micro SD,super miniature memory card

2 GRAVITY 7P Introduction

2.1 GRAVITY 7P Operation and Preparation

Battery Charging

If this navigator is first used, please use AV adaptor to fully charge it.

1. Apply the power adaptor to charge for GRAVITY 7P.

2.2 GRAVITY 7P Status and Reminder

Reminder icons

When some remind message appears in your reminder window, please click column and slip the screen to open the reminder list. Choose the menu you need, and confirm the information. Then you can close the reminder window through clicking the column to slide up. Please refer to below status icons:

	New email		Airplane Mode on
	USB connected		USB debugging connected
	Return button		Downloading
	Swipe up to show recently used apps		Home button
	Current electric volume.		WIFI connected, internet is available

Reminder board

Reminder icons will work while receiving emails, WIFI is open, you can open the reminder board to view the detailed information.

Open the reminder board

When the reminder column shows new reminder icon, please hold the column and slip down your finger, then the reminder board is opened.

3 Quick Start Guide

3.1 Keys Function

Keys Function Description:

Power button	Short press to sleep/wake up, long press to startup and shutdown.
Volume + (up)	increase the volume
Volume - (down)	decrease the volume
HOME button (home) 	Click it in any interface will return to main interface.
Back button (back) 	click it in any interface will return to previous menu
Menu button 	This button will display in menu interface.
Setting button 	Swipe up to show recently used apps; you can switch between the last two applications

3.2 Startup and Shutdown

Startup

Long press **POWER key for three seconds**, you can enter into startup picture. The system enters into screen lock status, please unlock it.

Shutdown

1. Long press POWER, it will popup shutdown window.
2. Shutdown window contains power off mode, restart mode and screenshot mode three options.
3. Click power off is the last step.

3.3 Open and Close of the Screen

Screen will be closed on its own when no operation happens.

1. Screen will be closed on its own if no operation happens for some time to save battery power
2. When screen is open, press POWER key, the screen will be closed immediately.

Open the screen when it is closed.

If the screen is closed, short press POWER to open the screen. The screen will be locked open it, it will show the picture as below picture, upward slide unlock the screen.

Picture 3.3-1

3.4 Usage of Touch Screen

GRAVITY 7P operating methods

There are below methods to view the main screen, menu and application procedure in your GRAVITY 7P.

Click

When you want to use the screen keyboard typing or choose application in the main interface, you only need to touch it by your finger.

Press on

If you want to open some item(textbox or the link in the webpage), or shortcut and main procedure move, you can press on this item.

It is normal phenomenon. Please turn off some application you don't need in advanced task management, or uninstall some third party application to release more system resource.

Warning

- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause interference
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

- SAR tests are conducted using standard operating positions accepted by the FCC with the device transmitting at its highest certified power level in all tested frequency bands, although the SAR is determined at the highest certified power level, the actual SAR level of the device while operating can be well below the maximum value, in general, the closer you are to a wireless base station antenna, the lower the power output.
- Before a new device is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the exposure limit established by the FCC. Tests for each device are performed in positions and locations as required by the FCC.
- For body worn operation, this device has been tested and meets the FCC RF exposure guidelines when used with an accessory designated for this product or when used with an accessory that contains no metal and that positions the handset a minimum of 5 mm from the body.
- Non-compliance with the above restrictions may result in violation of RF exposure guidelines.
