

FCC1

The image shows a black, cylindrical electronic device, possibly a sensor or a small antenna, with a textured surface. A white label with the text "FCC1" is affixed to the upper part of the device. The device has a cylindrical body with a textured, possibly woven or knitted, surface. The top part of the device is a smooth, dark, cylindrical cap. The bottom part of the device is a wider, rectangular base with a textured surface. The base has a small, circular, recessed area in the center. The device is mounted on a light-colored, textured surface.
