Key Usage Notes

1. Prerequisites

- **iPhone:** Requires iPhone 6 or later with iOS 10 or higher.
- **Vehicle:** Only compatible with cars featuring native **wired** Apple CarPlay.

2.Preparation

Ensure **Bluetooth and Wi-Fi are enabled** on your iPhone before use.

3.Connection

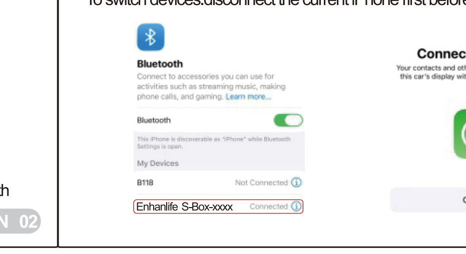

- Your iPhone must disconnect from all other Bluetooth/Wi-Fi devices in the vehicle before connecting.
- Connect your iPhone only to ‘Enhanlife S-Box-xxxx’ (**= serial number) via Bluetooth. The Wi-Fi connection will be established automatically once Bluetooth pairing is successful.

- Do **not** connect your iPhone to any other Wi-Fi networks during use.

4. Multiple Devices

Supports pairing with multiple iPhones, but only one can be active at a time.

To switch devices.disconnect the current iPhone first before connecting a new one.

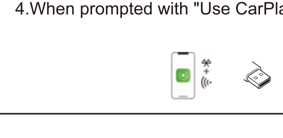

Quick Start

Before Connecting

- Disconnect your iPhone from the car’s original Bluetooth
- Make sure only ONE phone has Bluetooth turned on
- Turn off Personal Hotspot on your iPhone

Connection Steps:

1. Plug the adapter into your car's USB/USB-C CarPlay port.
2. Ensure phone Wi-Fi and Bluetooth are enabled and disconnected from other devices.
3. Select " Enhanlife S-Box-xxxx" from your Bluetooth list to pair.
4. When prompted with "Use CarPlay," confirm and wait for activation.

Online Firmware Update

If your CarPlay Box experiences no display, delays, freezing, or fails to function properly, please update the firmware via local area network (LAN) by following these steps:

1.Turn off Bluetooth first, then connect to Wi-Fi.

- Network: Enhanlife S-Box-xxxx
- Password: 12345678

2.Access Update Interface

- Open the browser on your phone
- Enter: 192.168.43.1

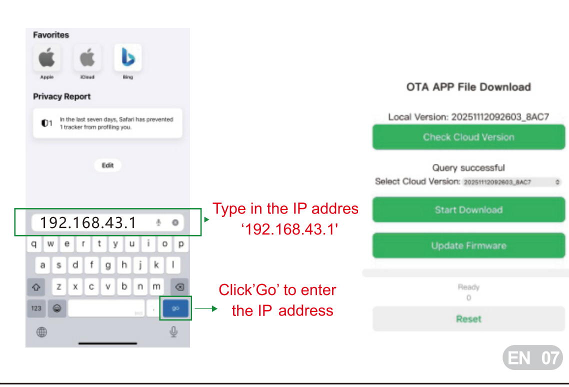

3. Download & Update

- Click "Check Cloud Version"
- Click "Start Download"
- After download completes, click "Update Firmware"
- Wait for the update to finish

Online Firmware Update

Important Notes:

- Do not cut off power during the upgrade process
- The device will restart automatically upon completion
- Do not manually unplug the device to avoid upgrade interruption or system crash.
- After each update, the CarPlay logo interface will refresh automatically, indicating the upgrade is complete and the device is ready for normal use

FAQ

Q: Frequent Disconnections

A: Please ensure your phone is connected to the "Enhanlife S-Box-xxxx" Wi-Fi network and check if your phone signal remains stable. If the issue persists, try resetting your phone's Wi-Fi settings or performing an online firmware update for the device, then reconnect.

Q: Car Screen Freeze/ CarPlay Not Responding After Pairing

A: It is recommended to restart the vehicle's infotainment system, toggle the CarPlay setting off and on, and then attempt the CarPlay pairing again. If the issue remains unresolved, please proceed with a firmware update for the device.

FAQ

Q: CarPlay Not Starting / Car Not Recognizing Device

A:Due to varying interface protocols across vehicle models, please access the online update page to adjust settings, verify that the wireless CarPlay adapter is enabled in your vehicle's system, and ensure it has been properly added to the CarPlay device list.

Q: Audio Issues (No Sound, Microphone Not Working, Music Intemupted, Abnomal,Voice Fundion)

A:To resolve audio issues, ensure your phone is not connected to other Bluetooth devices, close any background applications, and set your phone's audio output to CarPlay.

FAQ

Q:Unable to Automatically Reconned

A:To resolve automatic reconnection issues, first enable "Automatic Connection" in your car's CarPlay settings and verify that "Auto-Join" is turned on for "Enhanlife S-Box-xxxx" in your phone's Wi-Fi settings. If the problem continues, ensure Bluetooth and Wi-Fi are active when entering the vehicle, clear existing pairing records, restart your phone, and attempt re-pairing or update the firmware.
