Application for Class II Permissive Change (C2PC) - FCC

Dear Sir/Madam:

We respectfully wish to apply for a Class II permissive change (C2PC) for the above referenced FCC Identifier under the provisions of FCC rule [§ 2.1043](#).

The purpose of this application is to add the following features or modifications to the existing initial certification:

Update the 521-0014-408 KRFE PCBA and associate 521-0014-004 KRFE PCB to replace the 400-0322-001, RF pre-driver in the transmit amplifier circuit which is going EOL.

We affirm that the changes are within the boundaries of the [KDB 178919 D01 Permissive Change Policy v06](#) and do not compromise the compliance of the equipment with applicable FCC rules and regulations. All changes have been thoroughly evaluated and tested to ensure continued compliance. Supporting test reports are included with this application.

We certify that no party to this application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug abuse Act of 1988.

Sincerely,
