7 Maintenance

- To ensure safe and effective use of this tablet and to maximize its service life, please follow these guidelines:
- Opening and Maintenance: Refer to the manual for instructions on opening and maintaining the tablet. Avoid disassembling accessories not mentioned in the manual.
- Careful Use: Avoid dropping, knocking, or shaking the tablet, as rough handling can damage the screen, internal circuitry, and delicate components.
- Cleaning: Use a soft cotton cloth dampened with water and mild soap to clean the tablet case. For the lens and display, use a clean, dry, soft cloth (e.g., a lens cleaning cloth) to gently wipe them.
- Charging: When the charger is not in use, remember to unplug it from the power outlet. Avoid leaving a fully charged battery connected to the charger for extended periods to prevent overcharging and reduce battery lifespan.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

FCC/IC RF Radiation Exposure and SAR Statements

The Rugged Smart Tablet RT3 Pro has been tested for body-worn Specific Absorption Rate(SAR) compliance. The FCC/IC has established detailed SAR requirements and has established that these requirements. RF Exposure Information The radio module has been evaluated under FCC Bulletin C95.1 and IEEE 1528 and found to be compliant

to RF Exposure from radio frequency devices. This model meets the applicable government requirements for exposure to radio frequency waves. The highest reported SAR level for usage near the body (0mm) is 1.219W/kg, Body Simultaneous transmission is 1.416W/kg at the same time.SAR level for usage near the Hotspot(0mm) is 0.974 W/kg and Hotspot(10mm) simultaneous transmission is 1.277W/kg
