Battery

WP3 is included an internal battery.
You can track your battery status with the icon showed on the top right of the screen. As microwave ovens, stoves, or radiators, batteries may explode when overheated.

Warning

- Use only OUKITEL-approved batteries specifically designed for your phone. Incompatible batteries can cause serious injuries or damage to your phone.
- Never place batteries or phones on or in heating devices, such as microwave ovens, stoves, or radiators. Batteries may explode when overheated.

15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) This device may not cause harmful

interference, and

(2) this device must accept any interference received,

including interference that may cause undesired operation.

15.21 Information to user.

Any Changes or modifications not expressly approved by the

party responsible for compliance could void the user's

authority to operate the equipment.

15.105 Information to the user.

Note: This equipment has been tested and found to comply

with the limits for a Class B digital device, pursuant to

part 15 of the FCC Rules.

These limits are designed to provide reasonable protection

against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency

energy and, if not installed and used in accordance with the

instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in

a particular installation. If this equipment does cause

harmful interference to radio or television reception, which can be

determined by turning the equipment off and on, the user is encouraged to try to

correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from

that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

Absorption Rate (SAR) information:

This mobile phone meets the government's requirements for exposure to radio waves.

The guidelines are based on standards that were developed by independent scientific

organizations through periodic and thorough evaluation of scientific studies.

The standards include a substantial safety margin designed to assure the safety of

all persons regardless of age or health.

FCC RF Exposure Information and Statement The SAR limit of USA (FCC) is 1.6 W/kg

averaged over one gram of tissue. This device was tested

for typical body-worn operations with the back of the handset kept 1.0cm from the body.

To maintain compliance with FCC RF exposure requirements, use accessories that

maintain a 1.0cm separation distance between the user's body and the back of the handset.

The use of belt clips, holsters and similar accessories should not contain metallic

components in its assembly. The use of accessories that do not satisfy these

requirements may not comply with FCC RF exposure requirements, and should be avoided.

Body-worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure

requirements, a minimum separation distance of 1.0 cm

must be maintained between the user's body and the handset, including the antenna.

Third-party belt-clips, holsters, and similar accessories

used by this device should not contain any metallic components. Body-worn accessories

that do not meet these requirements may not comply

with RF exposure requirements and should be avoided.

Use only the supplied or an approved antenna.
