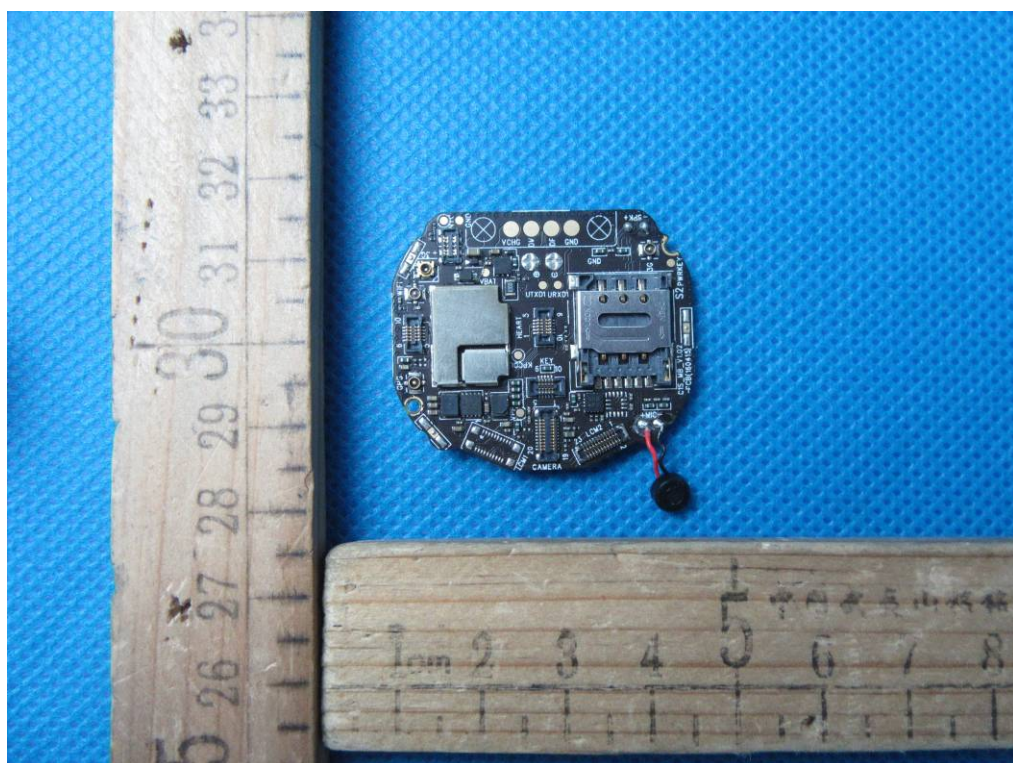

Photo 8

A photograph of a MediaTek MT6580A smartphone motherboard, showing various components like the main processor, memory, and camera module. The board is black with gold-plated contacts. Key components visible include the MediaTek MT6580A processor, a large black memory module (SEC 707 B214), a smaller MediaTek MT6350V component, and a camera module (VC7584-S1). The board is resting on a blue textured surface.
