Differences between Model ZDM1604-D-00 and Model ZDM1604-F-00

The difference between versions ZDM1604-D-00 and ZDM1604-F-00 is related only to the ring light silk-screen. In the model ZDM1604-F-00 (no DRL version) the corresponding light (LED) will not be silk-screened. This difference is only mechanical and does not affect the RF function
