1. Internal photos PM002

Figure 1 PM002 Processor module WirelessHART contained in "Smart Sensor HCHC". Transceiver for WirelessHART is mounted. Bluetooth transceiver connected to small chip antenna for short range communication, commissioning and local reading of sensor. Location and text for ISED / FCC is indicated with drawing. In production the label will be laser written into the surface of the module.

Figure 2 Backside of bareboard for PM002 which is without components (contact footprints is for debug ports for nRF52840 and LTC5800WH, to support firmware development.
