connection method

2.4Ghz wireless connection mode:

- Remove the battery cover on the back of the keyboard and install 1 AA battery, align the "+" and "-" symbols
- Flip the power button to the ON position

front

- Plug the receiver into your device
- Hold the FN+3 key. When the wireless connection indicator flashes red, the keyboard is in connecting mode
- The keyboard and receiver will automatically connect. The indicator will fade when connecting is successful
 - TIP: To use the media keys hold FN and press the secondary function (play/pause, volume up/down, etc.) you'd like to use
- **Bluetooth connection mode:**
 - pair with device 1 (channel 1)**
 - Remove the battery cover on the back of the keyboard and install 1 AA battery, align the "+" and "-" symbols
 - Flip the power button to the ON position
 - To enter pairing hold FN+1 key , the wireless connection indicator will flash orange
 - Use the Bluetooth settings on your device to pair with "Heyday KB". The indicator will fade when pairing is successful
 - pair with device 2 (channel 2)**
 - Hold FN+2 key to enter pairing again, and the wireless connection indicator will flash green
 - Use your second device to pair with "Heyday KB". The indicator will fade when pairing is successful
- **switching devices**
 - Short press FN+1 or FN+2 to switch between the two devices
- **note:** The keyboard will automatically pair the same way the next time it is powered on
- **system switching**

This keyboard is designed to automatically detect your operating system. However, for some legacy devices or if the key layout is incorrect, please manually switch modes by pressing Fn + the corresponding key:

 - Fn Key + Q: Mac
 - Fn Key + W: Windows
 - Fn Key + E: Android
 - Fn Key + R: iOS

troubleshooting

- If the keyboard is not connecting make sure the receiver is properly plugged into the computer or make sure wireless pairing is enabled on your device and pairing is successful
- If the keyboard is not responding check if the battery is low. If it is, please replace the battery
- If you're still having connectivity issues, move closer to the device or reduce interference from other wireless devices by moving them away from the keyboard
- Having trouble with your device? Be sure you're running the latest software on your devices. You can do this by doing a 'software update' in the settings of your device

need some help?

Keyboard Model: BGK02 FCC ID:2A023-BGK02, Receiver Model:BGK02R FCC ID:2A023-KB998R Working distance: 8-10m Made in China
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) This device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.
