Modular Approval Request

FCC ID: 2AO3P-GGBUD001

The following attestation addresses the requirements to support modular approval:

Modular approval requirement	Yes (provide brief statement)	No *
(a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	Yes, the radio circuitry is completely shielded.	
(b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	Yes, the module's Tx/Rx modulation/data are buffered.	
(c) The module must contain power supply regulation on the module	Yes, the module contains ICs with power supply regulation.	
(d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	Yes, the module has unique antenna connector and is marketed with specific antennas.	
(e) The module must demonstrate compliance in a stand-alone configuration	Yes, the module is compliant in stand-alone configuration.	
(f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)	Yes, the module as appropriate FCC ID label.	
(g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements	Yes, the module complies with all applicable rules and all possible operational modes guarantees compliance.	
(h) The module must comply with RF exposure requirements	Yes, the module complies with RF exposure requirements.	

Yours sincerely,

Name: Parooq Anjum
