

Label Drawing and Photo

Rendering

Below is a rendering of the R13 device label top and R13L label bottom. They're 2" (W) x 1" (H).

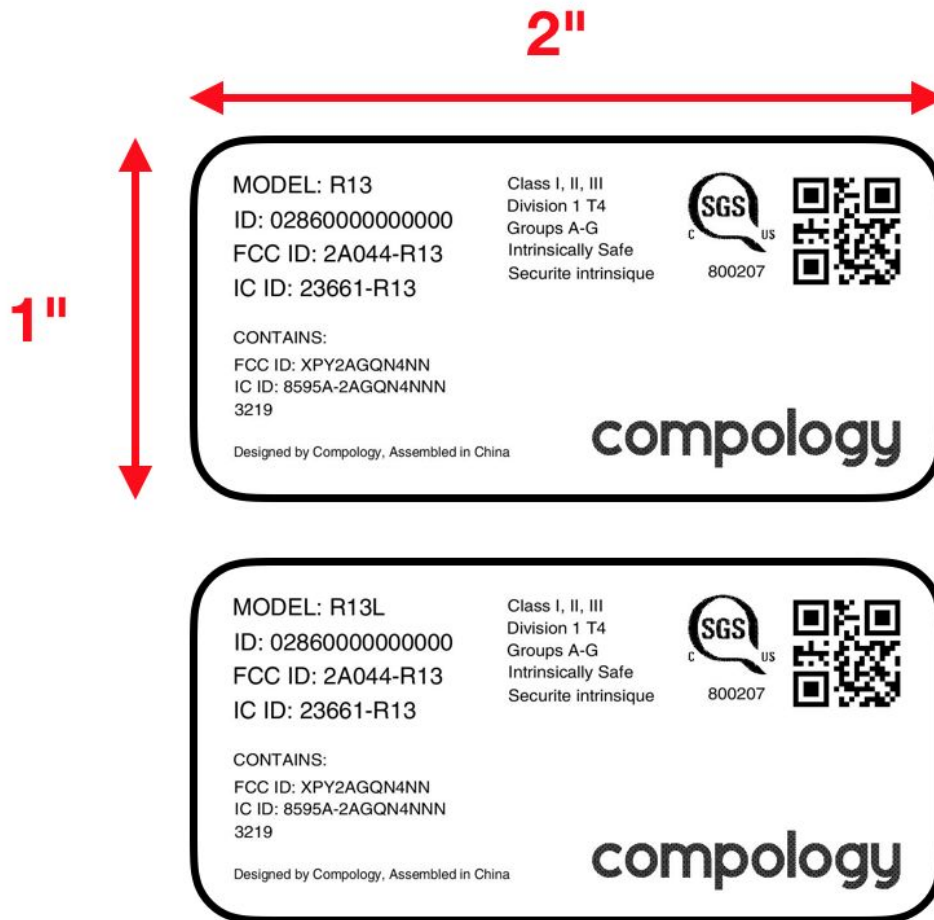

Figure 1. Rendering of R13 and R13L labels.

Placement

The label is placed on the bottom of the device under the tinted outer housing, visible through a polycarbonate window. It is printed on a white label with black text, which provides high contrast against the black interior plastic.
