4 schedule daily meals

A. Choose which days of the week the feeder will dispense food. In addition, specify to how many meals the daily portion should be divided.

Feeding schedule
Days: Sun Mon Tue Wed Thu Fri Sat >
Daily Portion: 140g
Meals: 3

B. You may pick from a list of food bags, the food that will be used with the feeder, in order to take into account calories / cup using the diet planner. Finally tap 'Save'

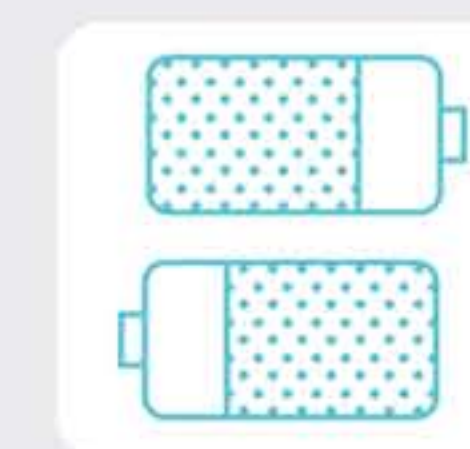

2 connect smart feeder

A. From the main screen, tap the 'Connect to Cat Feeder' button to start the wizard, then tap 'Next'.

B. Open the batteries cover and insert 4 AAA batteries into the battery compartment and close the plastic cover. Tap 'Next' to proceed.

C. Turn on the feeder by locating the power switch button at the back of the feeder. Then press and hold the button for 2 seconds until you see a blinking blue light. Tap 'Next' to proceed.

D. Make sure that only one (disconnected) feeder is turned on. If you have other feeders which you've already connected, it's ok, you can keep them turned on.

5 fill with dry food

A. Assemble the food container into the feeder body.

B. Fill the container with dry food and close the container with its cover.

ENSURE THAT ENVIRONMENTAL CONDITIONS ARE MAINTAINED. FAILURE TO FOLLOW THESE CARE INSTRUCTIONS MAY VOID THE WARRANTY:

A. Keep away from wet areas or wet floor.

B. Do not resist or apply physical force on the motorized swing.

C. Do not use the feeder with wet food or liquids.

D. Use the Cat2See app occasionally to check the battery status using the low-battery alerts.

FCC statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
