

DIMMING KIT FOR STRING LIGHT

User Manual

PACKAGE INCLUDE

SPECIFICATION

Item	Data
Maximum Operation Power	150W
Input	AC120V 60Hz
Control Distance	30M

INSTALLATION

1. Connect the Dimming Kit to the String Lights (Overall power < 150W).
2. Now you can use the Remote Controller to adjust the brightness of the String Lights.

OPERATION

Tip: Long press + / - to increase/decrease the brightness.

WARNING

1. The Dimming Kit operates with AC 120V power only. Do not use with any other type of power supply.
2. When using the remote control for the first time, please check the battery is in place and remote any plastic protection sleeve.
3. Disconnecting the string light from power supply to install the light bulbs.
4. Do not turn on the light with any empty socket.
5. Do not overload sockets or string lights. 150W is the maximum operating power.

E.g :

Bulb power: 1.5w

String light power: 22.5w

Maximum number of string lights will be 150W/22.5W≈6 sets

CORRECT DISPOSAL OF THIS PRODUCT

(Waste Electrical& Electronic Equipment)

This Marking shown on the product or its literature, indicate that it should not be disposed with other household wastes at the end of its working life.

To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the sustainable reuse of material resources.

Household user should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contact. This product should not be mixed with other commercial wastes for disposal.

FCC STATEMENT

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
