

Pro tip: The first step is to get the Deep Sentinel App, but dont worry, we'll remind you on the flipside ;)

REMOVE AND OPEN THIS GUIDE TO INSTALL

Federal Communications Commission (FCC) Statement

15.21
You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user’s authority to operate the equipment.

15.105(b)
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
- 1) this device may not cause harmful interference and
 - 2) this device must accept any interference received, including interference that may cause undesired operation of the device.

FCC RF Radiation Exposure Statement:

1. This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
2. This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.

Pro tip: The first step is to get the Deep Sentinel App, but dont worry, we'll remind you on the flipside ;)

Getting Started:

STEP 1:

Download the **Deep Sentinel App** in the App Store or Google Play Store.

STEP 2:

Following the steps in the **App**, connect the system to your home router.

STEP 3:

Use this guide to assist you alongside the Deep Sentinel App to help guide you in choosing locations for mounting the cameras on your home.

Get The App to Setup:

What's Included:

Location Basics:

We begin by protecting your **front door** and **back door**. Since all homes are different, you can choose the location of the remaining camera, whether it be your **driveway**, **side entrance**, or somewhere else.

Mounting Basics:

We recommend having a drill handy as you mount the cameras. Simply slide the shaft of the mount up to install, slide down, and clip the camera on to complete the process. v
