

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT (Electronic Unit Test) housing. On the left is a circular green printed circuit board (PCB) with various electronic components, including a large black square component in the center. To its right is a circular grey plastic housing with a radial pattern of slots. A black ruler with white markings is placed horizontally below the components, showing measurements in millimeters. The background is a blue textured surface.
Solder Board-Component View 1	 A photograph of a curved green printed circuit board (PCB) component. The board is populated with various electronic components, including a large black square component in the center. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters. The background is a blue textured surface.

Solder Board-Component View 2	 A photograph of a green, semi-circular printed circuit board (PCB) component. The component has a small gold-colored connector at one end and a red rectangular component at the other. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 3	 A photograph of a small, rectangular green PCB component. It has several small components soldered onto it, including what appears to be a microcontroller or similar integrated circuit. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 4	 A photograph showing a small green component on a blue textured surface. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters. The component is a small, curved green piece, likely a solder mask or a small component.
Antenna View	Coil Antenna  A photograph showing the internal components of a device, including a green circuit board and a circular coil antenna. A red box highlights the coil antenna, and a red line points from the label "Coil Antenna" to it. The device is housed in a grey plastic casing.
