

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of the EUT housing. Two green printed circuit boards (PCBs) are visible, each mounted within a white plastic housing. The PCBs are connected by a white ribbon cable. A black ruler is placed horizontally below the components for scale, showing measurements in millimeters. The background is a blue textured surface.
Solder Board-Component View 1	 A close-up photograph of a green PCB component. The component is mounted on a white solder mask. A black ruler is placed vertically to the left of the component for scale, showing measurements in millimeters. The background is a blue textured surface.

Solder Board-Component View 2	 A photograph showing a green printed circuit board (PCB) component with a red rectangular component soldered to its top surface. The component is positioned next to a black ruler with white markings, indicating its size. The background is a blue textured surface.
Solder Board-Component View 3	 A photograph showing the same green PCB component from a different angle, highlighting the underside where various electronic components like resistors and capacitors are visible. The red component is still present. A black ruler with white markings is placed next to it for scale, and the background is blue.

Solder Board-Component View 4	 A photograph of a small green printed circuit board (PCB) component, labeled '94V-0 L-2 E312490 2222', with a red rectangular component soldered to its top surface. The component is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 10 to 70 mm vertically and 20 to 100 mm horizontally.
Solder Board-Component View 5	 A photograph of a small green printed circuit board (PCB) component, similar to the one in View 4, but without the red component. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 10 to 90 mm vertically and 20 to 100 mm horizontally.

Solder Board-Component View 5	 A photograph showing a small green printed circuit board (PCB) component with a gold-plated edge connector. The component is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler has markings in millimeters (0-100 mm) and centimeters (0-10 cm). The PCB has some text printed on it, including "WTH22X06121985W", "L-2 E312490", "T1", and "2022-05-10".
Antenna View	 A photograph showing two circular antenna coils mounted on a white plastic frame, likely for a pair of glasses. The coils are made of thin, light-colored wire. Red boxes highlight each coil, with labels "Coil 1 Antenna" and "Coil 2 Antenna" pointing to them. The background is a blue textured surface.
