Refers to direct current (DC).

Information on the signification of CE marking

CE Marking indicates that this product meets the quality requirements set by the European Directives 2014/53/EU (Radio Equipment Directive), 2014/35/EU (Low voltage), 2014/30/EU(Electromagnetic Compatibility CEM), 2011/65/UE (restriction of the use of certain hazardous substances in electrical and electronic equipment ROHS) .

The European Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE) , requires that old household electrical appliances must not be disposed of in the normal unsorted municipal waste stream . Old appliances must be collected separately in order to optimize the recovery and recycling of the materials they contain and reduce the impact on human health and the environment.
The crossed out “wheeled bin” symbol on the product reminds you of your obligation, that when you dispose of the appliance it must be separately collected. Consumers should contact their local authority or retailer for information concerning the correct disposal of their old appliance.
As a responsible retailer we care about the environment
As such we urge you to follow the correct disposal procedure for the product
packaging materials and if applicable, accessories and batteries. This will help conserve natural resources and ensure that the materials are recycled in a manner that protects health and the environment.
You must follow laws and regulations about disposal .Waste electrical products and batteries must be disposed of separately from household waste when the product reaches the end of its life.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications to device will void the user's authority to operate the device. The battery is recycled. Do not dispose of the battery in fire, as it may cause explosion. Removal of the rechargeable lithium ion battery in this product should be conducted only by a qualified professional.

Le présent appareil est conforme aux la partie 15 des règles de la FCC et CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deuxconditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement. Le retrait de la batterie rechargeable au lithium-ion de ce produit doit être e ectué uniquement par un professionnel qualifié.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC and IC Radiation Exposure Statement:
This equipment complies with FCC and Canada radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Déclarationd'IC sur l'exposition aux radiations:
Cet équipement est conforme aux limites d'exposition aux radiations définies par le Canada pour des environnements non contrôlés.
Cet émetteur ne doit pas être installé au même endroit ni utilisé avec une autre antenne ou un autre émetteur.

VERSAFIT[®]
by DUBSLABS

On behalf of all of us at DubsLabs, thank you for your purchase.

Au nom de nous tous à DubsLabs, merci de votre achat.

Versafit are designed to provide a quality listening experience without the discomfort caused by traditional headphones. Feel free to let us know what you think.

Les Versafit sont conçus pour offrir une expérience d'écoute de qualité sans l'inconfort causé par les écouteurs traditionnels. N'hésitez pas à nous faire savoir ce que vous pensez.

Eric

How to wear / Comment les porter

1. Press the flat, foam-covered speaker directly over your ear canal and hold it there with one hand.

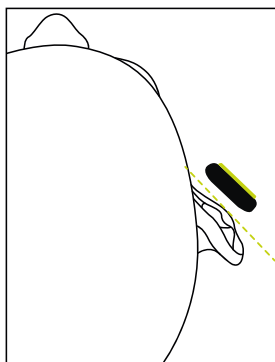

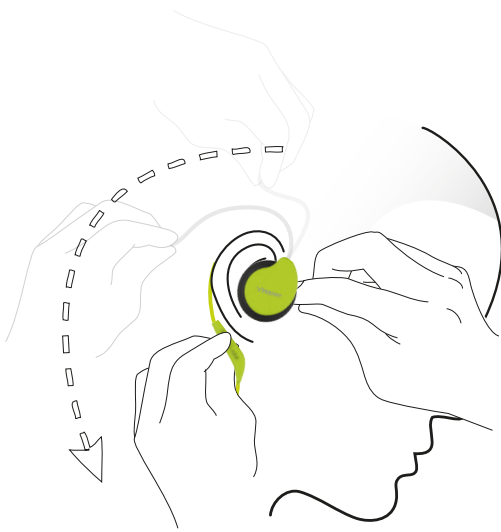

Appuyez le haut-parleur plat recouvert de mousse directement par dessus votre oreille et y maintenir avec une main.

2. With your other hand, wrap the memory wire ear hook up and around the back of your ear, ensuring that the ear hook is free of twists and kinks.

Avec votre autre main, enroulez le crochet d'oreille à fil à mémoire autour de l'arrière de votre oreille, en s'assurant que le crochet d'oreille est libre de torsions et de replis.

3. Press the adjustable memory wire closer to the back of your ear for a snug fit. Your Versafit should now be comfortable and secure.

Appuyez sur le fil à mémoire réglable plus près de l'arrière de votre oreille pour un ajustement confortable. Vos Versafit devraient maintenant être confortables et sûrs.

For best fit and sound quality, angle the speaker outward so that it lies flat against your ear.

Pour un meilleur ajustement et une bonne qualité sonore, inclinez l'écouteur vers l'extérieur de manière à ce qu'il repose à plat contre votre oreille.

Bluetooth® pairing instructions /Instructions d'appairage pour Bluetooth®:

1. Make sure your headphones are charged by plugging the left headphone remote into a USB power source with the supplied charging cable until the LED light on the remote shines blue, indicating the headphones are fully charged.

Assurez-vous que vos écouteurs sont chargés en branchant la télécommande de l'écouteur gauche à une source d'alimentation USB avec le câble de recharge fourni jusqu'à ce que le voyant de la télécommande s'allume en bleu, indiquant que les écouteurs sont complètement chargés.

2. Disconnect your headphones from the charging cable, and make sure your headphones are turned off by holding down the middle button on the remote until the LED light flashes red.

Débranchez vos écouteurs du câble de chargement et assurez-vous que vos écouteurs sont éteints en appuyant sur le bouton du milieu de la télécommande jusqu'à ce que le voyant DEL clignote en rouge.

3. With your headphones turned off, hold down the middle button on the headphone remote for approximately 7 seconds until the LED light on the remote flashes red and blue.

Lorsque vos écouteurs sont éteints, maintenez enfoncé le bouton du milieu sur la télécommande des écouteurs pendant environ 7 secondes jusqu'à ce que le voyant DEL de la télécommande clignote en rouge et en bleu.

Note: Your headphones will automatically turn off after being disconnected from Bluetooth for 10 minutes.

Remarque : vos écouteurs s'éteignent automatiquement après avoir été déconnectés de Bluetooth pendant 10 minutes.
