Re: Declaration concerning Antenna Specification for:

Product name: Smart Connect with 2AOFP-300101

To Whom It May Concern:

It is hereby declared that the product fulfils the requirement in FCC test relating to the antenna type.

Evaluation criteria

47 CFR Part 15, Subpart C (Specific rule part §15.203) state that the subject device must meet at least one of the following criteria:

- (a) Antenna must be permanently attached to the unit.
- (b) Antenna must use a unique type of connector to attach the unit.
- (c) Unit must be professionally installed. Installer shall be responsible for verifying that the correct antenna is employed with the unit.

The device specified above confirms to the FCC recommendations for internal antenna type described below:

Model No. of antenna: N/A

Type of antenna: Evaluation criteria: a

Gain of the antenna: -1.7 dBi

Frequency range: 902 to 928 MHz

The antenna is fixed to the product (glued to the connector) and no other antenna should be used.

Please contact me if there is any information you may need.

Sincerely,

Signature of contact person registered with FCC

Peter Hohnen, VP Research & Development
