How to use Amazon Echo to control your smart devices?

Step 1: Open the "Amazon Alexa" APP then find the "Skills" button on the menu. Press it.

The screenshot shows the Amazon Alexa app interface. The left-hand menu is expanded, showing options: 'Now Playing', 'Music, Videos & Books', 'Skills', 'Reminders & Alarms', 'Skills' (highlighted with a red arrow), 'Smart Home', 'Things to Try', 'Settings', 'Help & Feedback', and 'Not Alexa? Sign out'. The right-hand pane shows a 'Things' card with a search bar and a 'Weather' card for 'London'.

Step 3: Select your country code and enter your "Smart Life" APP account and password, then press the "Link Now" button. When the account success to login press the "Done" button.

The screenshot shows the Smart Life app's login interface. At the top, there's a status bar with the time 10:12 and battery level 93%. The app's header bar is dark blue with the text 'Amazon Alexa' and a 'Done' button. Below the header, there's a large white 'A' logo. To the right of the logo, the text reads: 'To continue, close this window to discover devices you can control with Alexa.' Below this, there's a button that says 'You can now leave this page.' The login form consists of a 'Password' field with a toggle for 'Show Password', a 'Remember Me' checkbox, and a 'Link Now' button. At the bottom, there's a 'Forgot Password?' link and a 'Sign in with your Amazon account' option with a blue arrow icon. The bottom of the screen shows a navigation bar with icons for Home, Search, Add, and Profile.

The screenshot shows the 'Devices' tab in the Alexa app. A list of smart devices is displayed, including smart lights, smart sockets, and smart bulbs, each with an 'Forget' button. A confirmation message on the right states: 'Alexa is looking for devices. Device discovery can take up to 20 minutes. If you have a Philips Hue bridge, please tap the button below to open the bridge and then add your devices again.' Below the message is a blue button with a right-pointing arrow. At the bottom, a blue button labeled 'Smart Sockets' is highlighted with a red rectangle, and a 'FORGET ALL' button is visible below it.

Warning Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with radiation exposure limits set forth for an Uncontrolled environment. This equipment should be installed and operated with Minimum distance 20cm between the radiator and your body.
